

S. No	Command Word / Terms	Requirement	Marks
1	Annotate	Add labels or notes or short comments, usually to a diagram, map or photograph, to describe or explain.	1 mark for 1 Or 2 valid points
2	Assess	Weigh up the factors for and against a proposal and come to a judgment.	1 mark for 1 appropriate point
3	Calculate	Work out a numerical answer.	1 mark for 1 calculate / numerical answer
4	Compare	Explain what is similar and different about two things. For a comparison, two elements or themes are required. (Two separate descriptions do not make a comparison)	1 mark for 1 valid point 1 mark reserved for Similarity and 1 for Difference
5	Contrast	Explain the differences between two things.	1 mark for 1 difference
6	Define	Explain the meaning of a term or phrase.	1 mark for definition and 1 for examples. In some cases 1 mark for definition along with example.
7	Describe	Write about what something is like or where it is. Describe may be used in questions about resources (on a figure, a table, etc.) in the question paper (e.g. describe the trend of a graph, the location of an industry on a map, etc.). It may also be used when you need to describe something from memory (e.g. describe a doab, etc.). Describe is often linked with other command words such as name and describe (name the feature and say what it is like), describe and explain (write about what it is like and give reasons for ...).	1 Mark for 1 appropriate description with example (if required). In case of Describe and explain (1 mark for description and 1 mark for reason of that description)
8	Describe the distribution	Write about the location of the required feature(s) as shown on the map(s) provided, by referring to:	1 mark for 1 appropriate description of distribution with example / reference to the

		– their relationship to other features shown, e.g. the provinces and rivers – their density in particular areas.	named location shown in the resource (i.e. map, graph etc.)
9	Describe the pattern of	Write about the location of the required feature(s) as shown on the map(s) provided, by referring to particular arrangements such as nucleated, linear, parallel, even spacing, etc. and, where relevant, locating the patterns in relation to the provinces and rivers, or any other features shown on the map(s) provided.	1 mark for 1 appropriate description of pattern by referring to particular arrangements such as nucleated, linear, parallel, even spacing, etc. patterns in relation to the provinces and rivers, or any other features shown on the map shown in the provided resource (i.e. map, graph etc.)
10	Draw	Make a sketch showing the required features. Draw may be extended to draw a labelled diagram (draw a diagram with written notes to identify its features).	1 Mark for correct sketch / drawing with labels
11	Explain/account for/ give reasons for	Show with reasons why something occurs or happens.	2 marks for 1 point /factor with reason (1 for identification of valid point/factor and 1 for explaining that with the help of example).
12	Evaluate	Consider the evidence for and against a proposal, and come to a judgment. Developed points explaining both views Evaluation giving clear support to one view and appropriate examples (6)	3 to 4 Marks for Clear Possibilities/ Advantages/Benefits/Strengths (etc.) with appropriate reasons and Pakistan based examples 3 to 2 Marks for Clear Problems/Limits/Weakness/disadvantages (etc.) with appropriate reasons and Pakistan based examples
13	Giving your views/ comment on;	Explain what you think about something.	1 mark for 1 reason
14	How	Explain in what way/to what extent/by what means/methods something happens.	1 mark for 1 point /factor with reason (1 for identification of valid point/factor and 1 for explaining that with the help of example).

15	Identify	Pick out something from information given in text or on a map/diagram/etc.	1 Mark for 1 or 2 correct identification along with measuring units (if required)
16	Illustrating your answer, describe/explain	Describe/explain with the help of specific examples or diagrams. The command may be extended to require a diagram: Illustrate your answer with a labeled diagram.	1 Mark for 1 correct description / reason with the help of examples or diagrams.
17	Insert/label	Place specific names or details on a map/diagram/etc. in response to a particular requirement.	1 Mark for 1 or 2 accurate labels
18	Justify	Explain why you chose something or why you think in a certain way about an issue.	1 mark for 1 point / factor with reason and example (if required)
19	List	Identify and name a number of features to meet a particular purpose.	1 Mark for 1 / 2 correct names
20	Locate	Find where something is placed or state where something is found or mark it on a map or diagram.	1 Mark for 1 / 2 accurate marking on map / diagram
21	Name State or specify or identify.	Give the word or words by which a specific feature is known or give examples which illustrate a particular feature.	1 Mark for 1 appropriate Point (that can be a name or a statement)
22	Predict	Use your own knowledge and understanding to explain what might happen next, and justify your reasoning. Probably information will be provided to help you to come to a decision.	1 mark for 1 appropriate judgment with reason and example (if required)
23	Refer to/with reference to	Write an answer which uses some of the ideas provided on a map/photograph/ diagram/etc. or other additional material such as a case study.	If used with Command word Describe than 1 mark for 1 descriptive statement using the information provided in map/diagrams/graphs/ case studies etc. If used with Command word Explain than 2 marks for 1 appropriate factor with reason and example (if required) with the help of information provided in

				map/diagrams/graphs/ case studies etc.
24	State		Refer to an aspect of a particular feature by a short statement or by a few words or by a single word.	1 Mark for 1 valid point
25	Study		Look carefully at; usually at one of the resources (a figure, a table, etc.) in the question paper.	1 Mark for 1 valid point
26	Suggest		Explain your ideas on or your knowledge about the given topic. It is often coupled with why; this requires a statement or an explanatory statement referring to one or more particular feature(s).	1 mark for 1 valid point along with the reason.
27	To what extent		Give the reasons for and against the proposal in the question and justify. Also give one possible solution with reason for the problems / limitation mentioned / discussed in answer.	3 Marks for Clear Possibilities/ Advantages/Benefits/Strengths (etc.) with appropriate reasons and Pakistan based examples 2 Marks for Clear Problems/Limits/Weakness/disadvantages (etc.) with appropriate reasons and Pakistan based examples 1 Mark for most appropriate possible solution with reason to one of the problem/limit mentioned / discussed in the answer
28	Use/using the information provided		Base your answer on the information you have been given.	If used with Command word Describe than 1 mark for 1 descriptive statement using the information provided in map/diagrams/graphs etc. If used with Command word Explain than 2 marks for 1 appropriate factor with reason and example (if required) with the help of information provided in map/diagrams/graphs etc.

29	With the help of information	Write an answer which uses some/all of the information provided, as well as additional information from your own knowledge.	If used with Command word Describe than 1 mark for 1 descriptive statement using your own knowledge or information provided in map/diagrams/graphs etc. If used with Command word Explain than 2 marks for 1 appropriate factor with reason and example (if required) while using your own knowledge or information provided in map/diagrams/graphs etc.
30	What	What is used to form a question concerned with the selection of ideas/details/ factors.	1 mark for 1 clear point / factor / detail
31	What differences are	Use comparative statements to state the differences involved or the changes that have occurred or are shown between two points on a map/diagram/etc. Complete descriptions of the two things are not required.	1 mark for 1 appropriate difference / change along with example.
32	Where	State at what place/to what place/from what place.	1 mark for 1 accurate point
33	Why	Explain the cause(s) of or the reason(s) for or the consequence(s) of something.	1 marks for 1 point /factor with reason (1 mark for identification of appropriate idea and a further mark for development i.e. reason/explanation) with the help of example.
34	Two Statement Question	Consider the evidence for and against a proposal, and come to a judgment. Developed points explaining both views Evaluation giving clear support to one view and appropriate examples Evaluation giving clear rejection to one view and appropriate examples	3 to 4 Marks for Clear Possibilities/ Advantages/Benefits/Strengths (etc.) with appropriate reasons and Pakistan based examples for agreed / supported statement 3 to 2 Marks for Clear Problems/Limits/Weakness/disadvantages (etc.) with appropriate reasons and Pakistan based examples for disagreed / rejected statement.

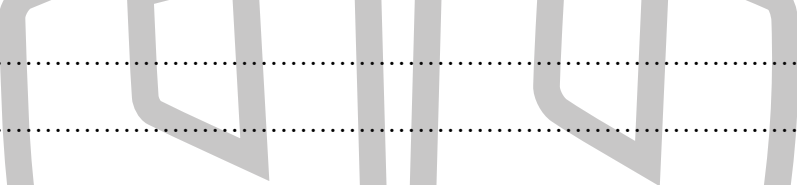

Name the followings.

- A. _____
- B. _____
- C. _____
- D. _____
- E. _____
- F. _____
- G. _____

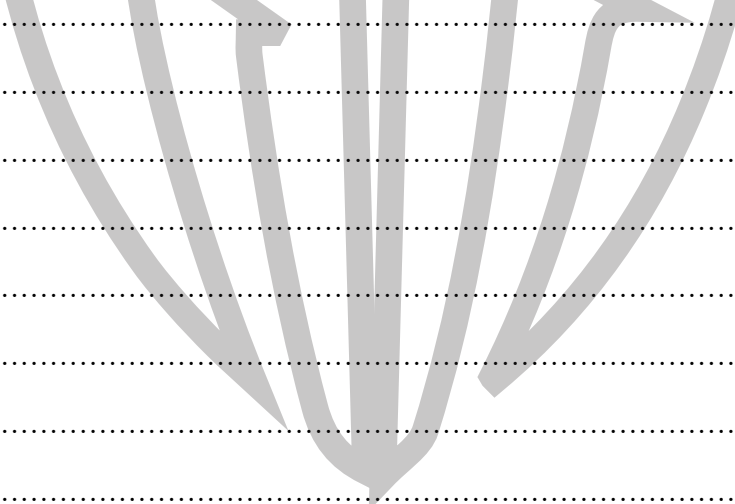

- H. _____
- 1. _____
- 2. _____
- 3. _____
- 4. _____
- 5. _____
- 6. _____

- Describe Pakistan's location in relation to other countries in South and Central Asia. [June 2018, Q 1]

[3]

Explain the importance of the coastline of Pakistan. [4] [June 1996, Q 1]

Q1. Pakistan is the sixth-most populous country with a population exceeding 199 million people. It is the 36th largest country in the world in terms of area with an area covering 881,913 km² (340,509 sq mi)

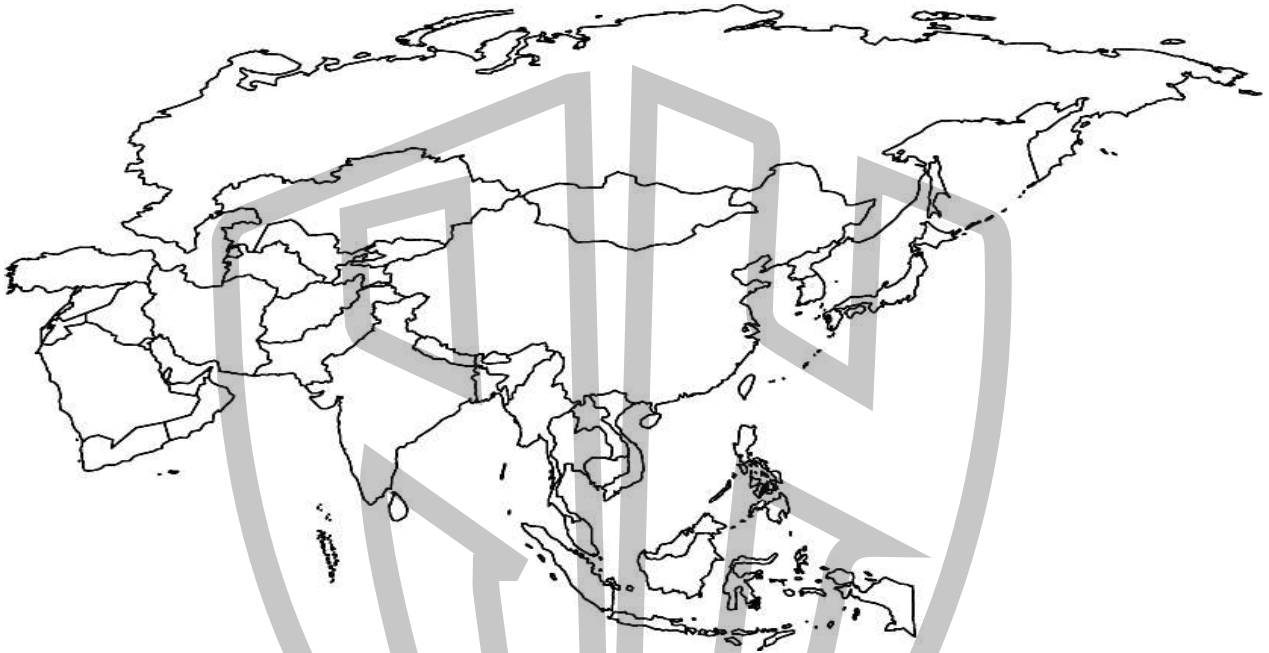

(a) Study the map given below.

(i) Locate on the map of Asia:

- China
- India

- Afghanistan
- Iran

[4]

(ii) Describe the importance of Pakistan on the map of Asia in terms of its location.

[3]

(iii) State the location of Pakistan in terms of Longitude and Latitude.

Longitude: _____

Latitude: _____

[2]

(iv) Name the country with which Pakistan shares the longest border.

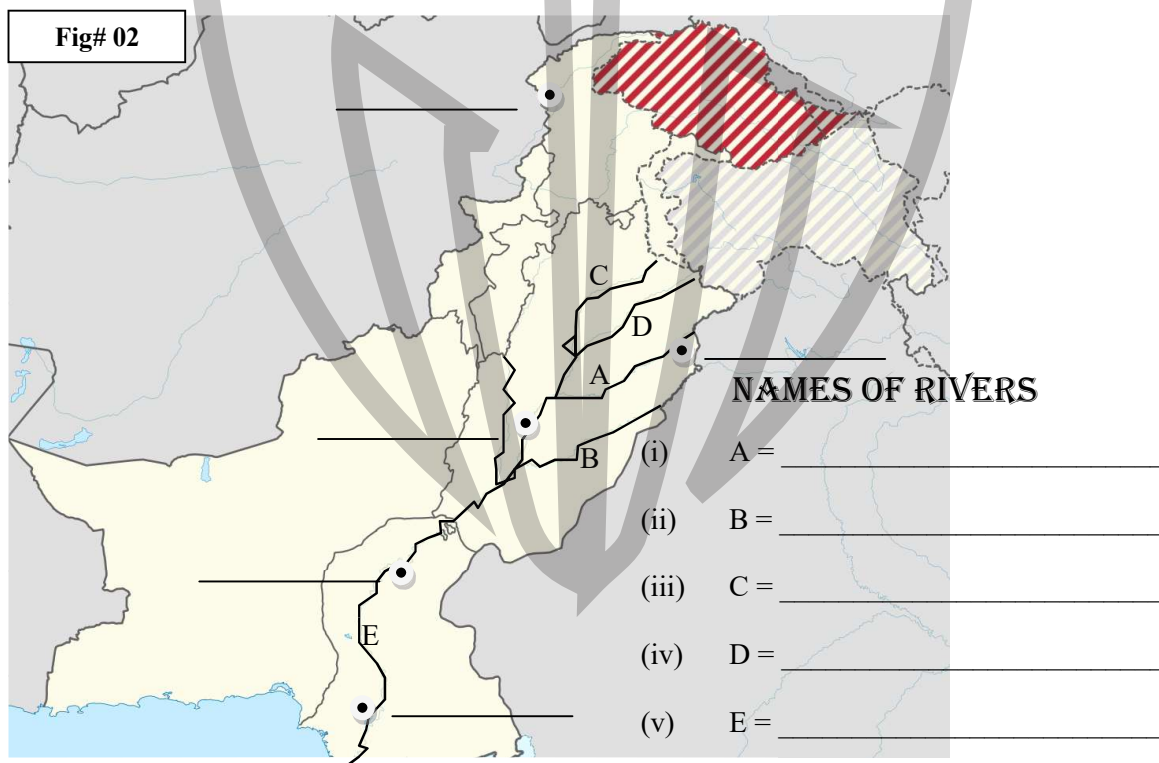

[1]

(b) The strait near Saudi Arabia and Iran is the only sea passage through which about 20% of the world's petroleum, and about 35% of the petroleum traded by sea, passes through; making it a highly important strategic location for international trade.

- (i) Name the strait: _____ [1]
- (ii) Gwadar is a city located towards the south – western borders of Balochistan. Under development as a free trade port, it is the District Headquarter of Gwadar District. Describe the importance of Gwadar port to Pakistan.

[3]

(c) Study the map of Pakistan (**Fig. 02**)

(i) Mark the following cities on the map of Pakistan (**Fig. 02**)

- Chitral
- Lahore
- Sukkur
- Multan
- Hyderabad

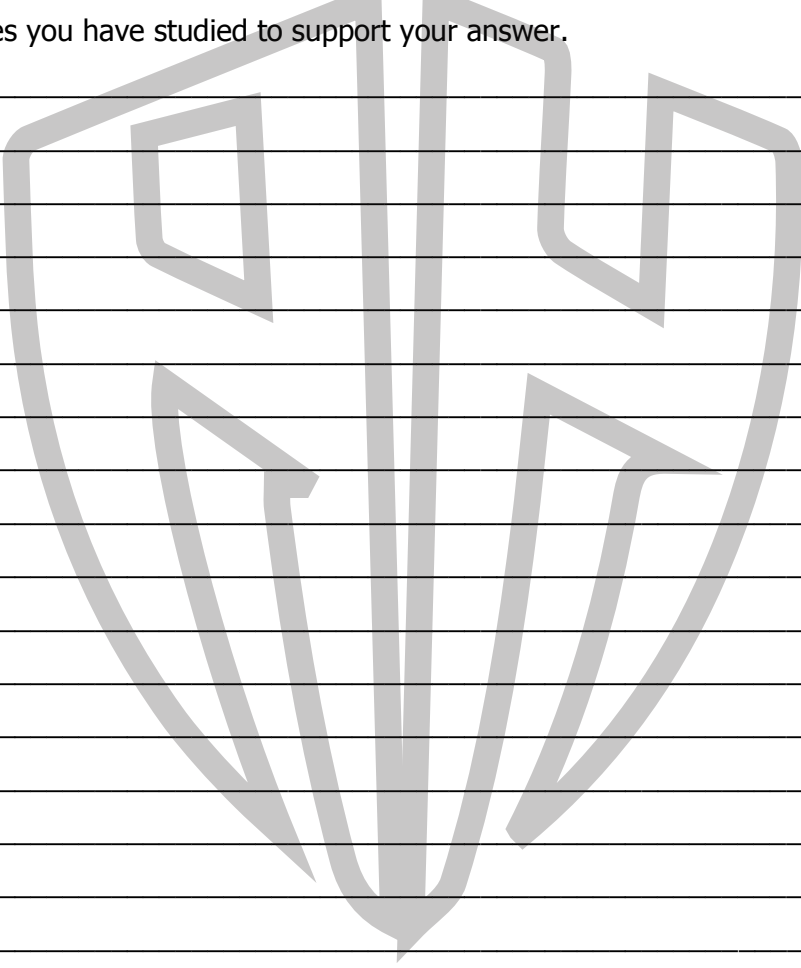

[2.5]

(ii) Name the rivers marked A, B, C, D and E on the map of Pakistan **(Fig. 02)** [2.5]

(d) *Pakistan shares the western borders with Iran and the construction of Pakistan – Iran Gas Pipeline will help solving the energy crisis faced by Pakistan.*

Pakistan should not depend upon the resources of other countries to solve its energy crisis. Instead try to explore other means within the country to boost up its economy.

Which statement do you agree with more? Give reasons for your answer and refer to places and examples you have studied to support your answer.

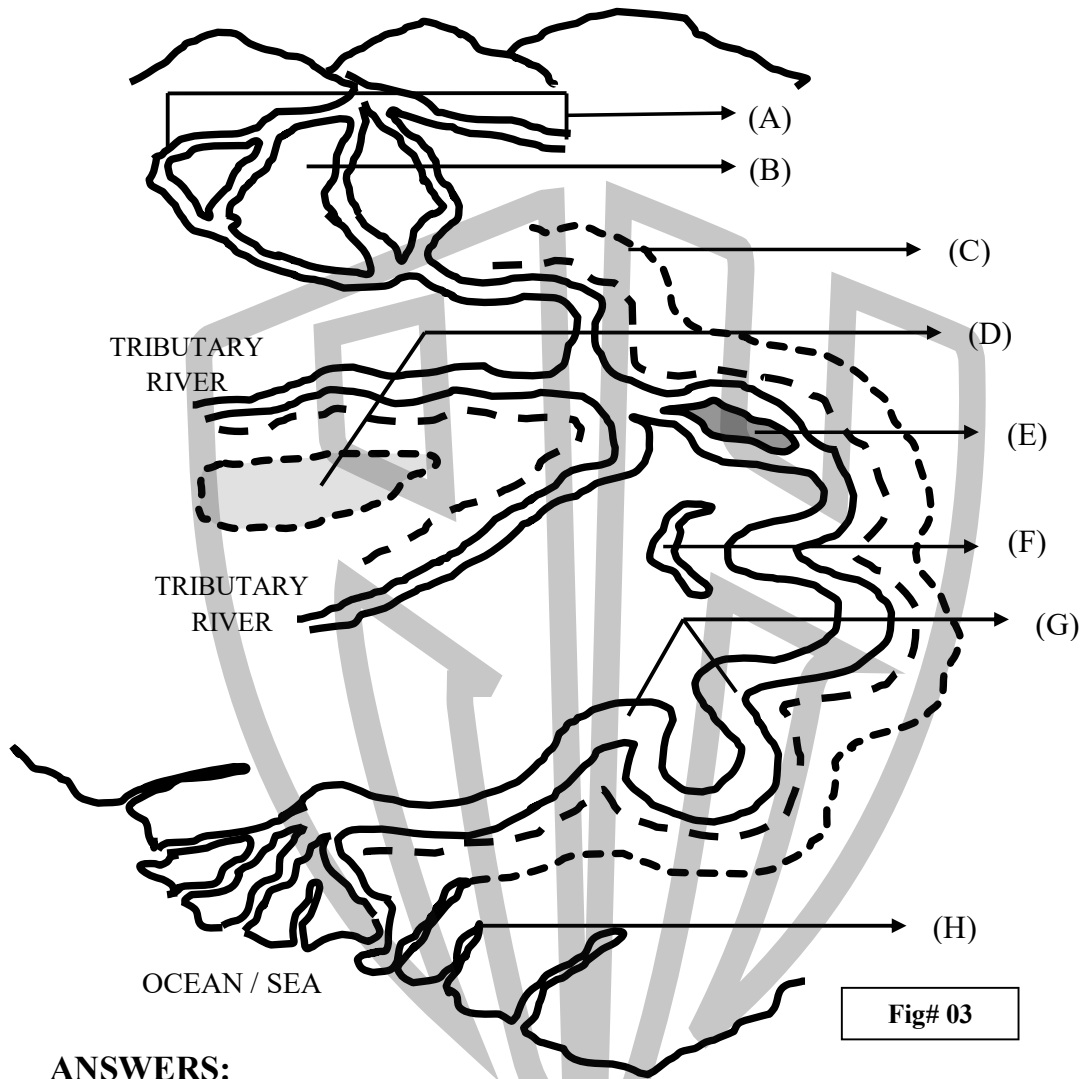

[6]

[TOTAL: 25 MARKS]

Q2. Topography is the study of surface shape and features of the earth.

(a) Study the given figure (**Fig. 03**)

(i) Label the marked topographical features of the given river

ANSWERS:

(A) _____

(B) _____

(C) _____

(D) _____

(E) _____

(F) _____

(G) _____

(H) _____

[4]

- (ii) Describe why the physical feature you have mentioned in **Q2 (a) (i) / (D)** is considered best for settlements?

[2]

- (iii) Describe why the physical feature you have mentioned in **Q2 (a) (i) / (H)** is not suitable for farming?

[2]

- (iv) Identify the physical feature (**Fig. 04**)

[1]

- (v) Name the mineral abundantly found in the mentioned physical feature.

[1]

Fig# 04

Upper Indus Plain

Lower Indus Plain

Fig# 05

Lower Indus Plain

Fig# 05

[4]

✓ _____

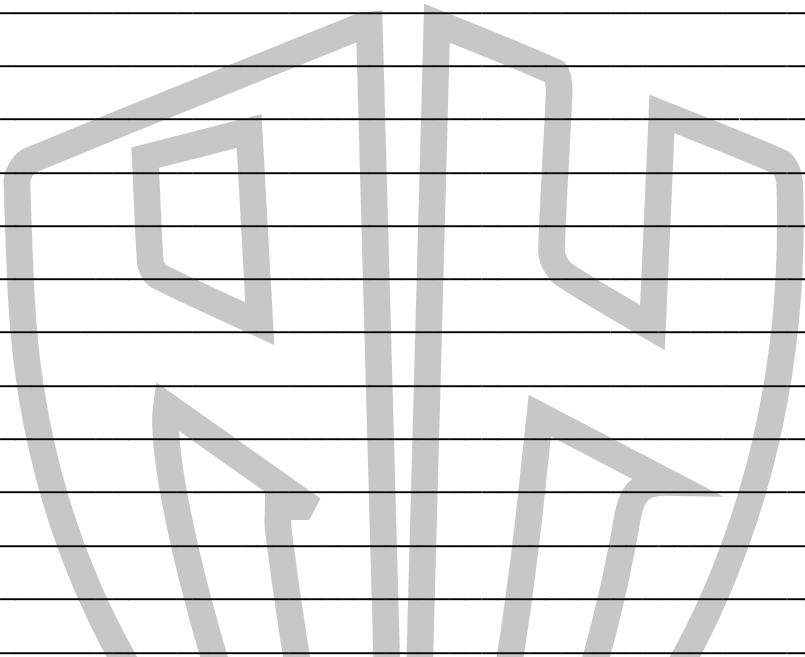

✓ _____

[2]

[3]

[3]

(d) To what extent do you think that the economic development in Balochistan can be raised by promoting farming through irrigation program? Support your answer by referring to places and examples you have studied.

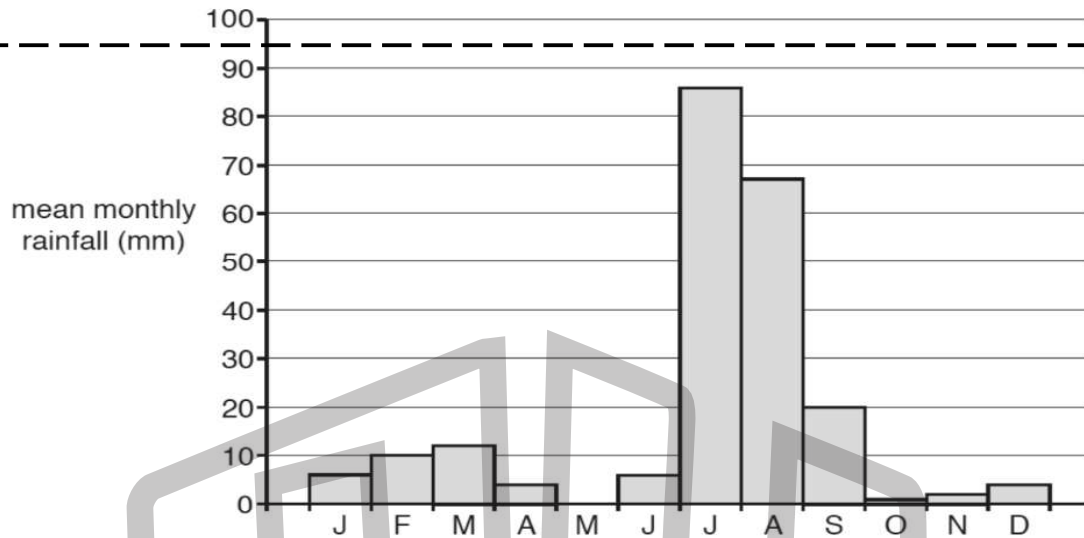

[6]

[6]

[TOTAL: 25 MARKS]

(a) Study Fig. 1 which shows the distribution of monthly rainfall in Karachi.

(i) A. For how many months does Karachi experience less than 10 mm rainfall?

..... [1]

B. Estimate the total rainfall in Karachi for the period July to September.

..... [1]

(ii) Describe briefly the climatic region in which Karachi is located.

..... [1]

(iii) What is the main source of rainfall in Karachi? From which direction do the rain-bearing winds come?

Source.....

Direction..... [2]

Q2. (i) A. From the list below, circle one place which regularly experiences the highest temperatures in June in Pakistan.

Quetta Karachi Jacobabad Abbottabad Larkana Zhob

B. Which range best describes the highest temperatures recorded? Put a tick in one of the boxes below. [2]

Temperature (°C)	TICK
46–48	
49–51	
52–54	

(ii) Explain why the place you have named in (i) is the hottest place in Pakistan.

.....

.....

.....

..... [2]

(iii) Describe the effects on people of living in extremely hot climate.

.....

.....

.....

..... [2]

Q3.

(a) Study Fig. 7, which shows climate data for Lahore, Punjab. Lahore has a monsoon climate.

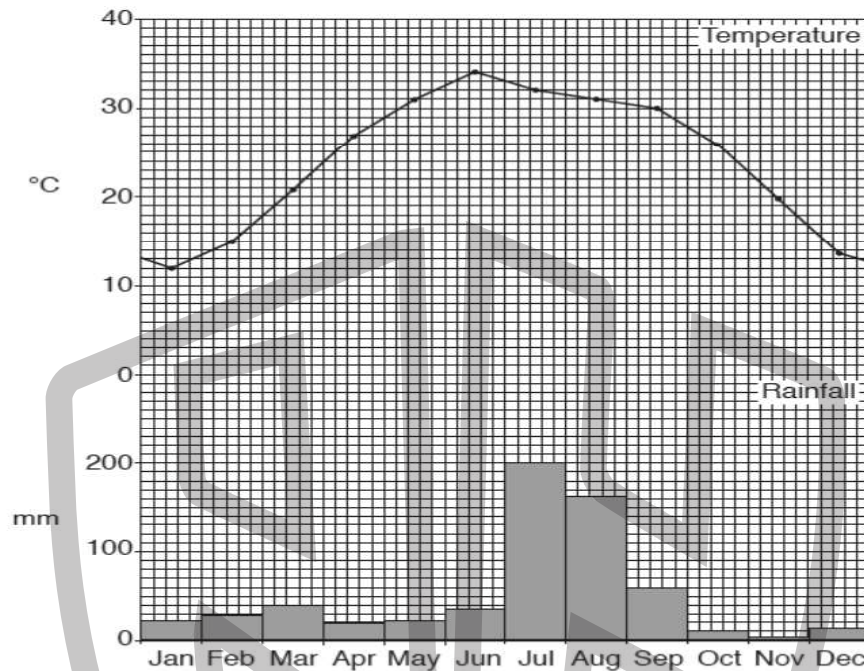

Fig. 7

(i) What is meant by the term 'monsoon'?

..... [1]

(ii) How does Fig. 7 show that the climate in Lahore is typical of a monsoon climate?

..... [2]

(iii) Give reasons why Lahore has more rainfall in July than in December.

..... [2]

Q4.

(b) (i) Study Fig. 2 which shows rainfall data for two cities on the River Indus.

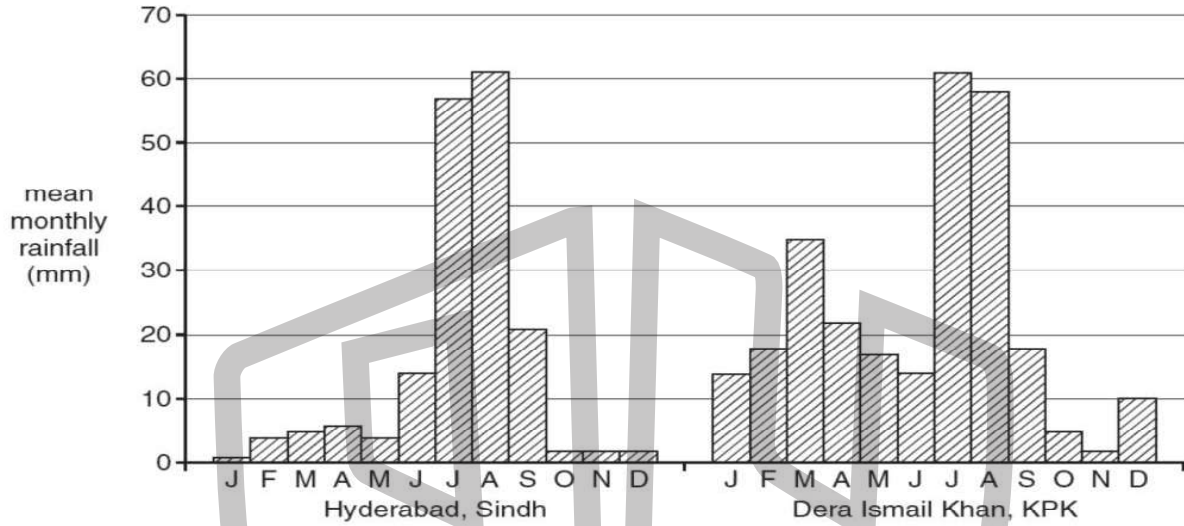

Fig. 2

A. Compare the amount and pattern of monthly rainfall in Hyderabad with that of Dera Ismail Khan.

.....

.....

.....

.....

.....

..... [3]

B. Give **two** reasons for any similarities or differences in the two patterns of rainfall.

.....

.....

.....

..... [2]

Q5.

(c) Study Figs 5A and 5B, which show rainfall distribution in Pakistan.

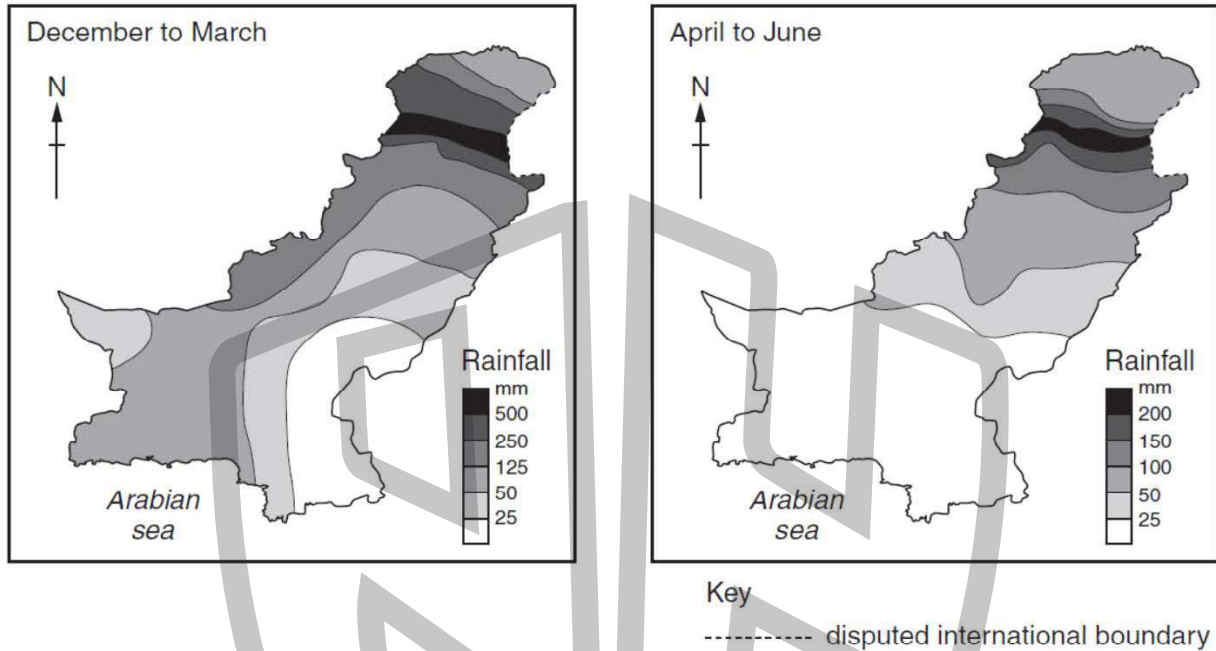

Fig. 5A

Fig. 5B

(i) What is the main cause of rainfall from:

A. December to March?

..... [1]

B. April to June?

..... [1]

(ii) Name **one** area which receives high rainfall in both seasons A and B.

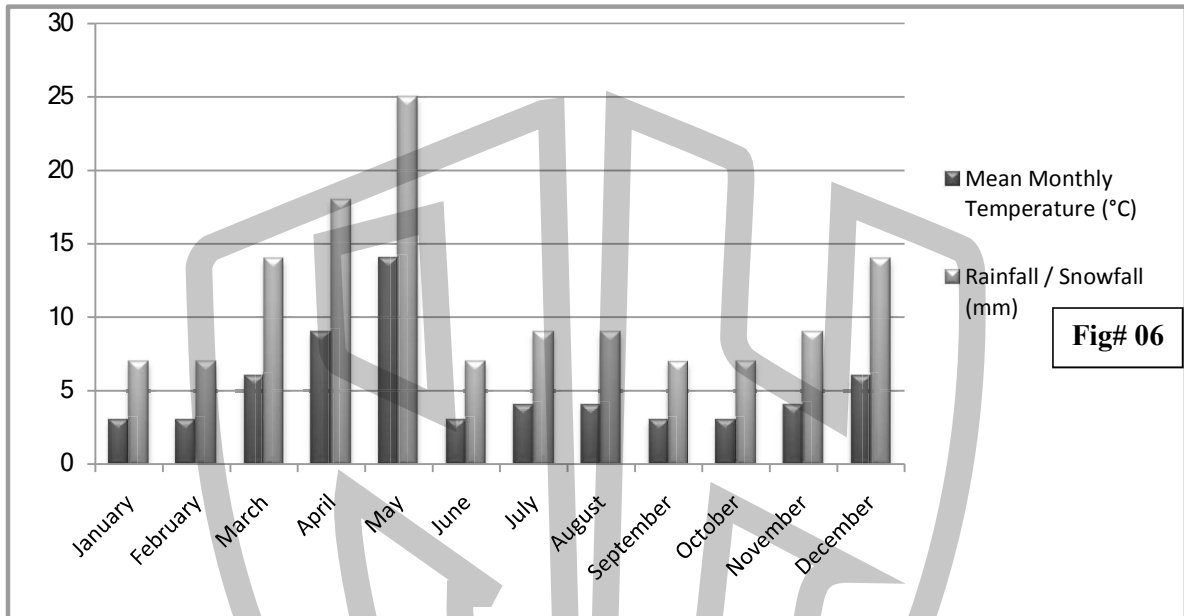

..... [1]

(iii) Which area receives the highest rainfall from December to March?

..... [1]

- Q1. Pakistan is located on a great landmass north of the tropic of cancer; it has a continental type of climate characterized by extreme variations of temperature, both seasonally and daily. Very high altitudes modify the climate in the cold, snow-covered northern mountains; temperatures on the Balochistan Plateau are somewhat higher.**

(a) Study the figure (**Fig. 06**) which shows the climatic variations of Misgar (Gilgit)

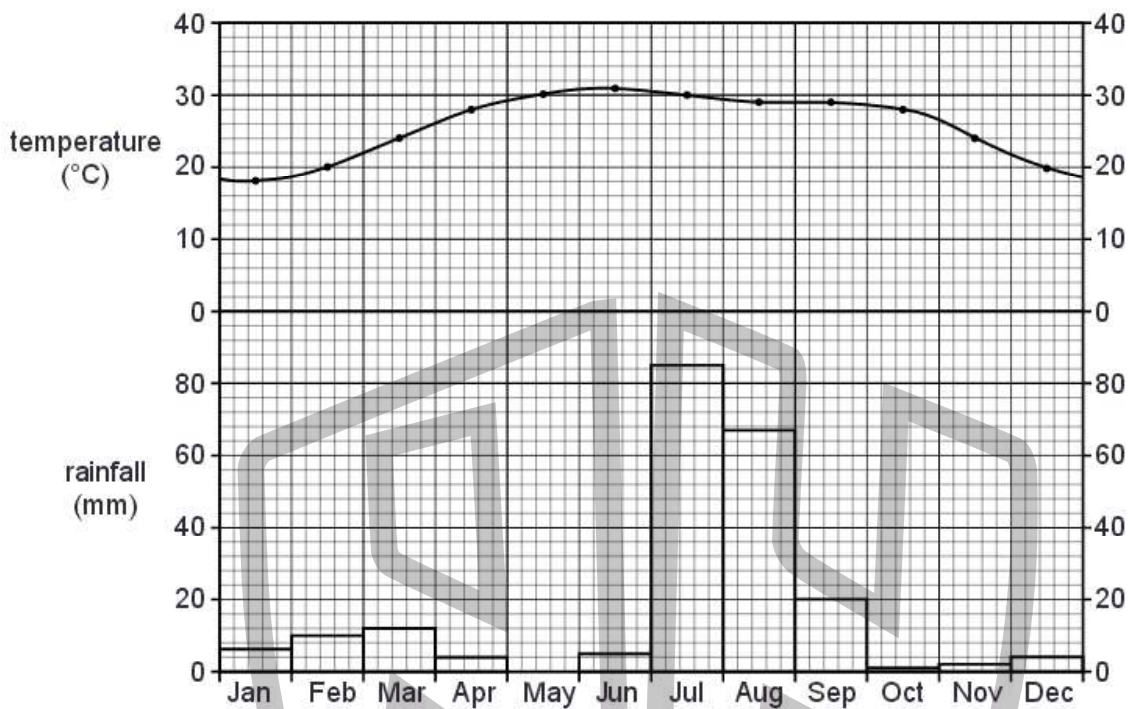

- (i) Explain how the winters in northern mountains make it a difficult area to live in? Use your knowledge about the mountainous areas and **Fig. 6** to help you.

[3]

- (ii) Explain why the precipitation to the Northern Mountains is in the form of snow?

[1]

(b) Study the given figure (**Fig. 07**) which shows the climate of Karachi.

- (i) By how much does the temperature rise from January to May?

[1]

- (ii) Describe the pattern of rainfall during the winter season (October to March)

[2]

- (iii) With reference to the graph (**Fig. 07**) only, describe the climate for the months of June to September.

[3]

(c) Western Depression is traditionally defined as a disturbance as extra tropical storms that brings sudden winter rains to the north western parts of Pakistan.

(i) Explain how Western Depression can be useful to Pakistan?

[3]

(ii) Name the area from where usually the western depression originates.

[1]

(iii) The coastal areas of Pakistan are usually under threat by Cyclones. Describe how the effects of cyclone be prevented along the coastal areas of Pakistan.

[2]

(iv) A drought is a period of below-average precipitation in a region; resulting in prolonged shortages in its water supply, whether atmospheric, surface water or ground water. Explain the effects of drought upon the economy and lifestyle of the people in a drought affected area like Thar.

[3]

- It is more economical to develop Indus plain rather than northern mountains due to rough climate and topographical constraints.*

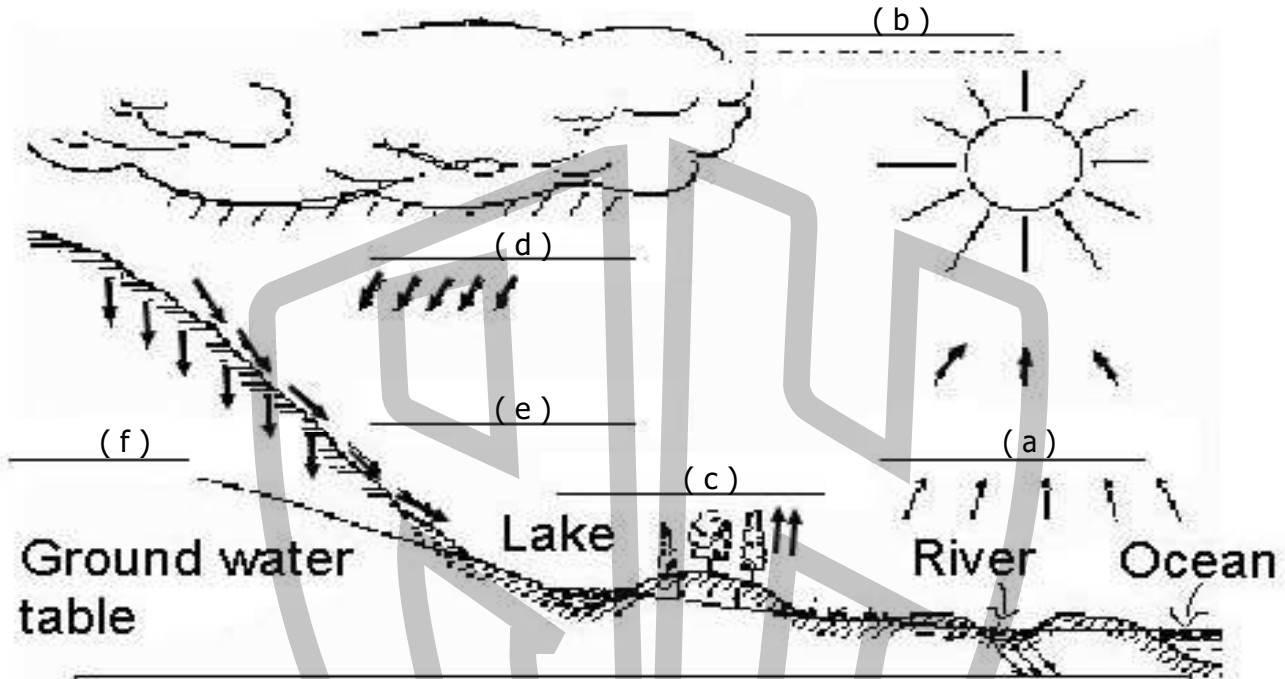

Which statement do you agree with more? Give reasons for your answer and refer to places and examples you have studied to support your answer.

[6]

[TOTAL: 25 MARKS]

Q1. The water cycle, also known as the hydrological cycle or the H₂O cycle, describes the continuous movement of water on, above and below the surface of the Earth.

- (a) (i) Study the diagram which shows 'Hydrological Cycle' and name the processes marked (a), (b), (c), (d), (e) and (f) [3]

ANSWERS:

- | | |
|-----------|-----------|
| (a) _____ | (d) _____ |
| (b) _____ | (e) _____ |
| (c) _____ | (f) _____ |

- (ii) Name any two industries which use water as its main component.

_____ [2]

(b) Pakistan is an agricultural country and most of its agriculture depends upon the climatic factor including rain as Pakistan also lies in a monsoon region.

- (i) Explain why the farmers in many parts of Pakistan are heavily dependent upon the irrigation system for their crops?

 _____ [3]

- (ii) Identify and name the lift irrigation system shown in the figure.

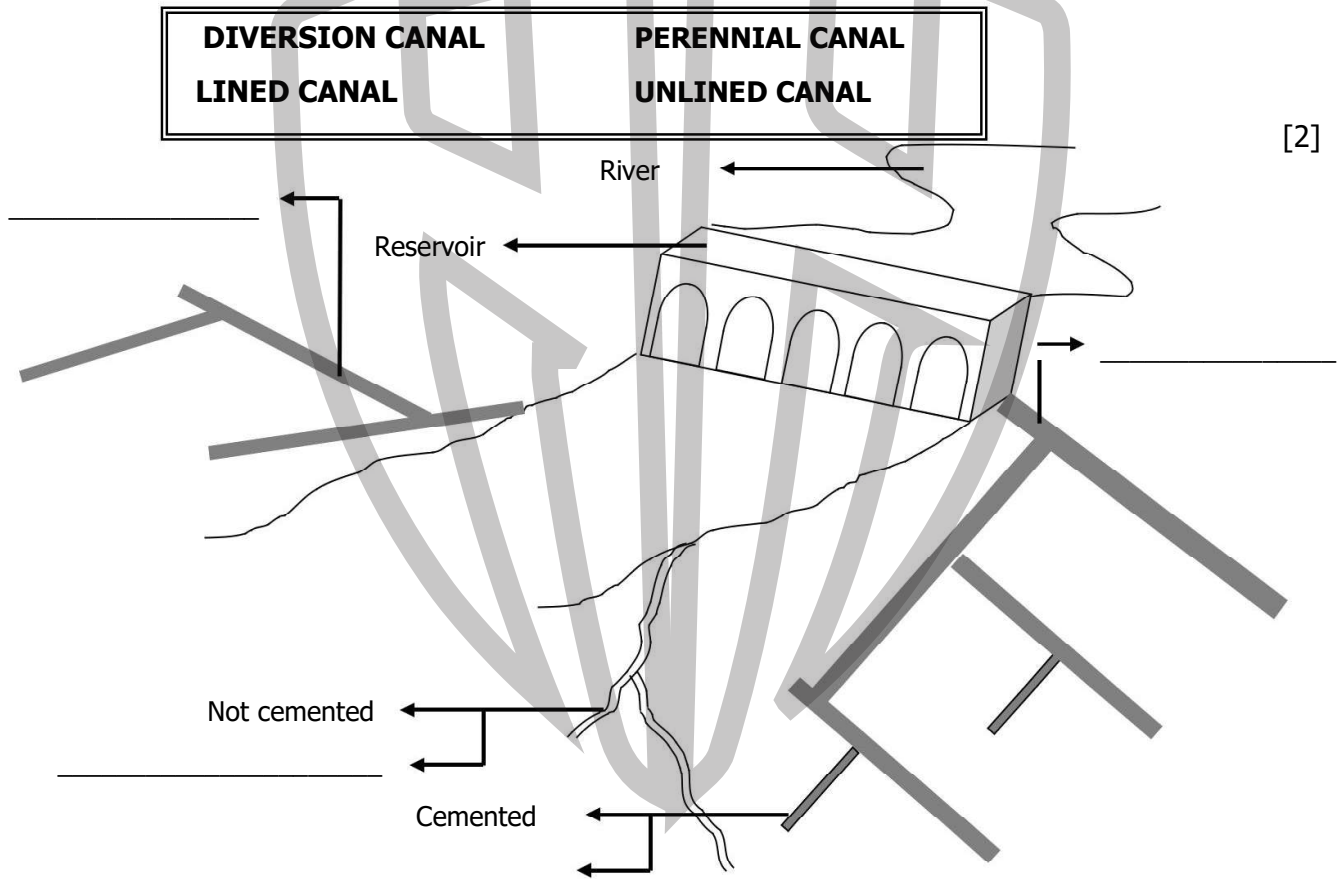

NAME OF IRRIGATION

METHOD:

_____ [1]

- (iii) Study the figure and label the types of canals used in Pakistan for the irrigation purpose by using the terminologies below:

- (c) The Indus Waters Treaty is a water-distribution treaty between India and Pakistan, brokered by the World Bank (then the International Bank for Reconstruction and Development). The treaty was signed in Karachi by Indian Prime Minister Jawaharlal Nehru and President of Pakistan Ayub Khan.

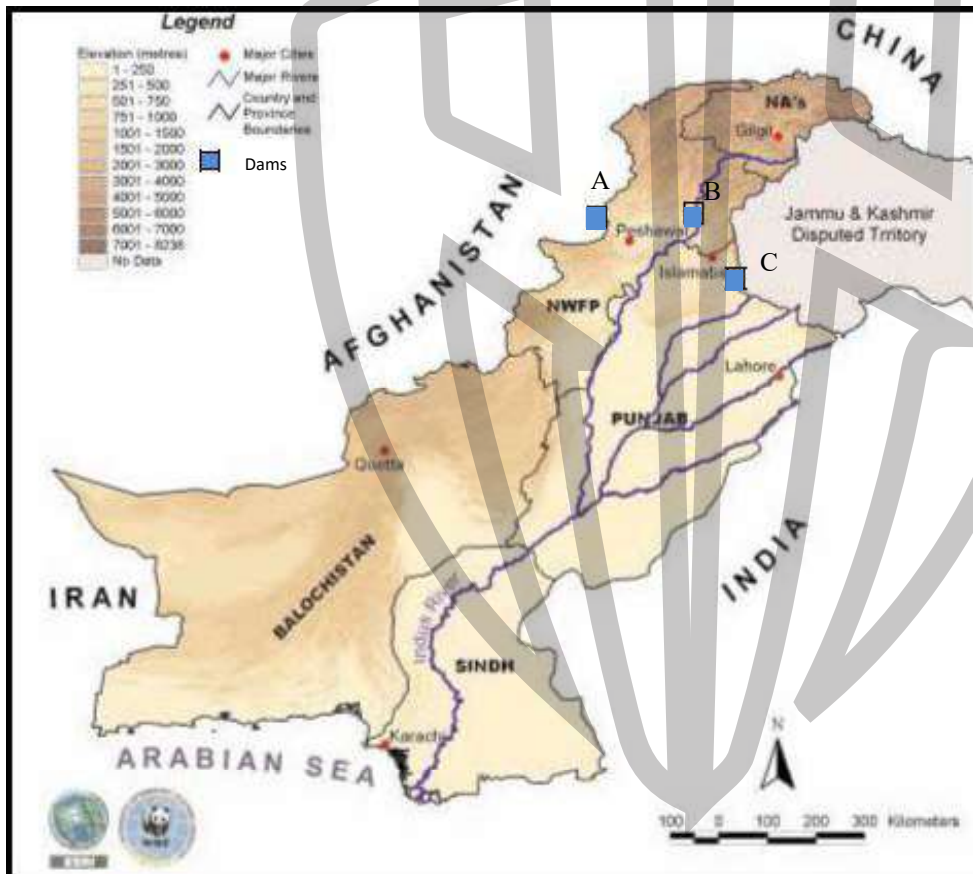

- (i) State the year in which Indus Water Treaty was signed by the two countries.

_____ [1]

- (ii) Describe the importance of Indus Water Treaty to Pakistan

[3]

- (iii) Study the map of Pakistan and name the dams marked A, B and C in the given map: [3]

DAMS IN PAKISTAN

A: _____
B: _____
C: _____

- (iv) Name a dam constructed by India which openly violates the Indus Water Treaty.

[1]

- (d) *To what extent do you agree that Pakistan can be developed by promoting farming / agriculture by introducing more irrigation Programs.*

Give reasons for your answer and refer to places and examples you have studied to support your answer.

[6]

[TOTAL: 25 MARKS]

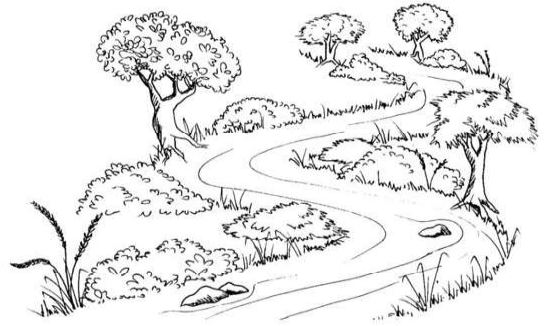

Q2. Forests can be defined as an area with high density of trees. They cover approximately 9.4 % of Earth's surface.

(a)

- (i) Identify the type of forest shown in the figure.

[1]

- (ii) Suggest some features for the forest you have named in Q1 (a) (i)

[3]

- (iii) Study the picture of Coniferous forests that are abundantly found near the mountainous areas of Pakistan. Suggest any three reasons for their importance in Forestry.

[3]

- (iv) Give atleast two importance of Mangrove forests apart from their importance to provide breeding grounds for fishes.

IMPORTANCE:

[2]

(b) Deforestation is a contributor to global warming and is one of the major causes of enhanced greenhouse effect.

(i) Explain the effects of deforestation in Pakistan.

[3]

(ii) Suggest some ways through which the effects of deforestation you have mentioned earlier can be reduced.

[3]

(c) Afforestation is the establishment of a forest or stand of trees in an area where there was no forest.

(i) Name **any one** Afforestation project being implemented in Pakistan.

[1]

(ii) How sustainable forestry can be achieved in Pakistan?

[3]

(d) To what extent do you think that the menace of deforestation could be overcome by upgrading forestry department and involving the government and NGOs in the Afforestation Projects?

Give reasons and refer to places and examples you have studied to support your answer.

[6]

[TOTAL: 25 MARKS]

Q1. State the meaning of the term “ground water”?

.....
 [1]

Q2. Why is irrigation necessary for growing crops in many areas of Pakistan?

.....

 [3]

Q3. Analyze the reasons for ineffectiveness of rainfall.

.....

 [3]

Q4. Evaluate the effectiveness of Modern and traditional methods of irrigation for commercial and small-scale subsistence farmers.

.....

..... [4]

Q5. Explain the importance of the Indus Water Treaty to Pakistan.

..... [4]

Q6. Name a Link canal and explain its purpose.

..... [3]

Q7. Compare barrages with dams.

..... [3]

[4]

[2]

[3]

.....

.....

..... [4]

Q12. Describe the problems which have resulted from the use of unlined canals to supply water for irrigation in Pakistan.

..... [4]

Q13. How can waterlogging and salinity problems be overcome?

..... [4]

[4]

(a) (i) Study Fig. 5, which shows a diagram of the karez system of irrigation.

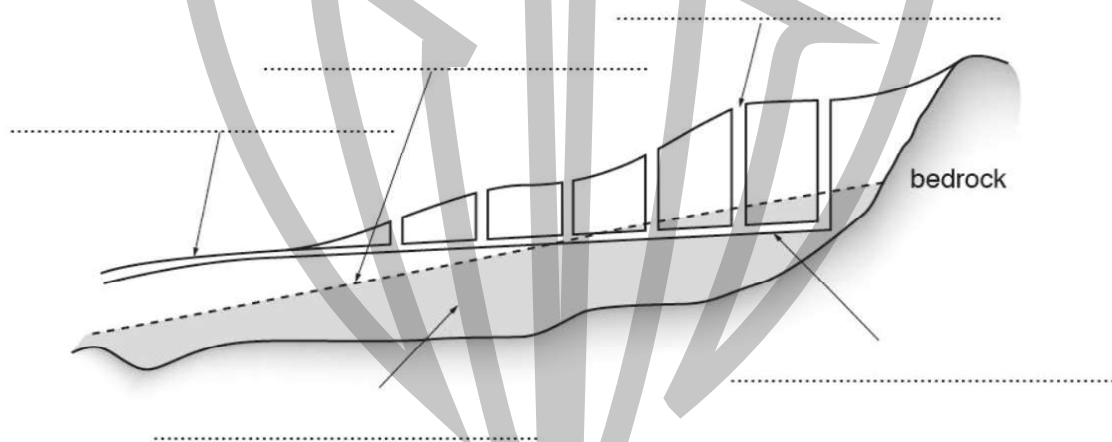

Fig. 5

Choose **three** terms from the list below and use them to label the diagram in **three** of the spaces provided.

maintenance shaft aquifer canal tunnel water table [3]

Q1. Describe the advantages and disadvantages of developing fishing industry in Pakistan.

[4]

Q2. (a) How can fish be stored and processed onshore?

[3]

(b). Why is fish processing called value-added?

[1]

Q3. Describe the fishing industry of Makran Coast with reference to methods of catching the fish, ports and the uses of the fish caught.

..... [4]

Q4. Describe the methods used in commercial marine fishing.

..... [3]

Q5. Why are fish so plentiful in the mangroves of the Indus Delta Coast?

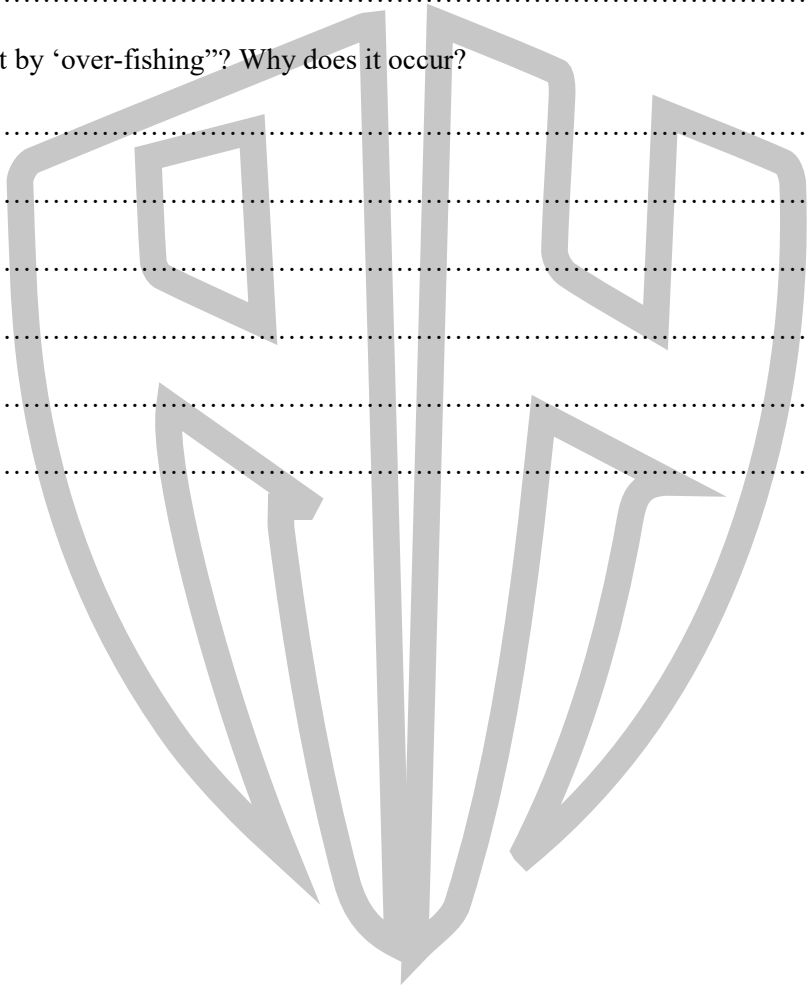

..... [3]

Q6. Increasingly fish are obtained from fish farms. Describe this method of producing fish.

..... [4]

Q7. What is meant by ‘over-fishing’? Why does it occur?

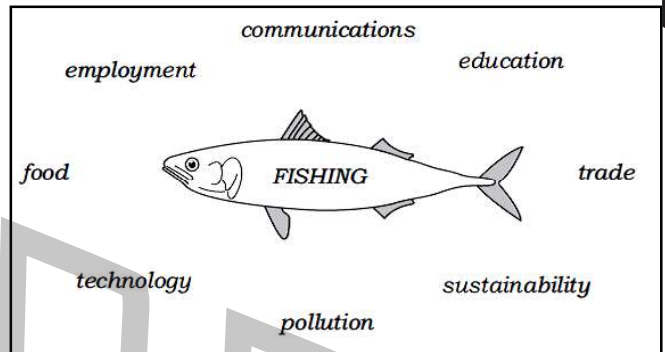

..... [3]

Q1. The fishing industry includes any industry or activity concerned with taking, culturing, processing, preserving, storing, transporting, marketing or selling fish or fish products.

(a) Study the figure which shows the interconnection of fishing industry in Pakistan.

(i) Describe the importance of fishing industry in Pakistan.

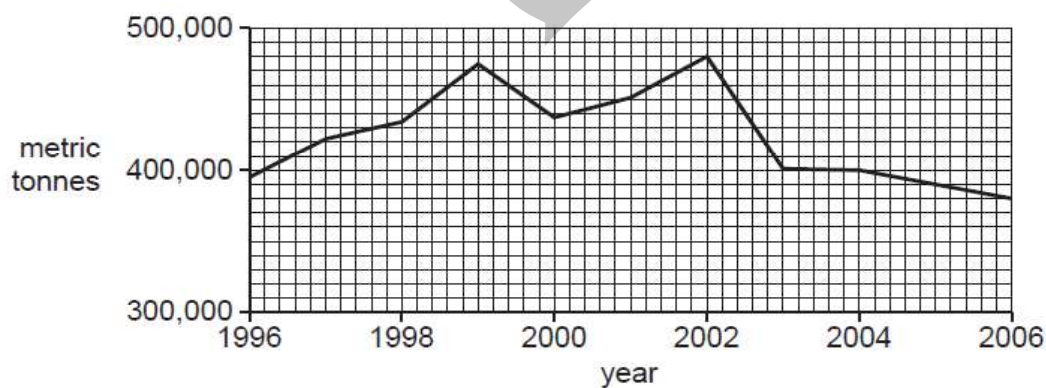

[3]

(ii) Describe the disadvantages Pakistan faced, due to the development in the fishing industry.

[3]

(b) Study the graph which shows the weight of marine fish caught between 1996 – 2006

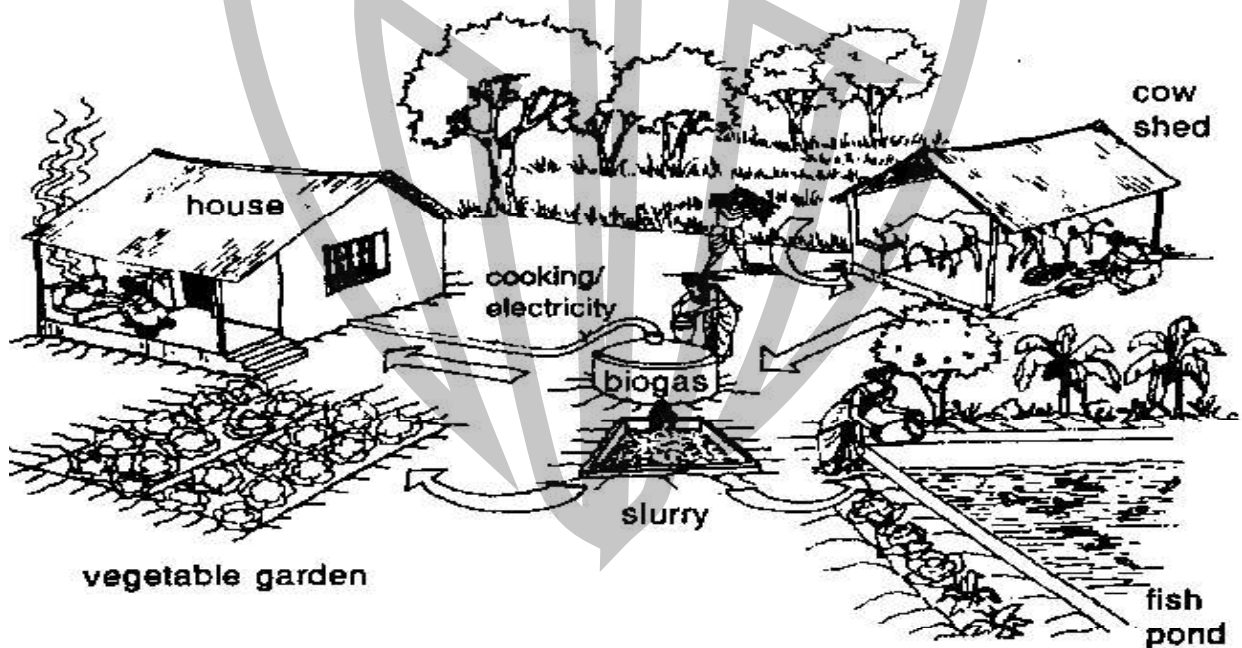

- (i) The weight of marine fish caught in 2006 was less than that of 1996. Suggest **any two** reasons for this decrease.

[2]

- (ii) Suggest some methods to improve marine fishing in Pakistan.

[3]

- (c) Study the integrated fish farming method being practiced in different parts of Pakistan.

- (i) What does the term 'Aqua Culture' means?

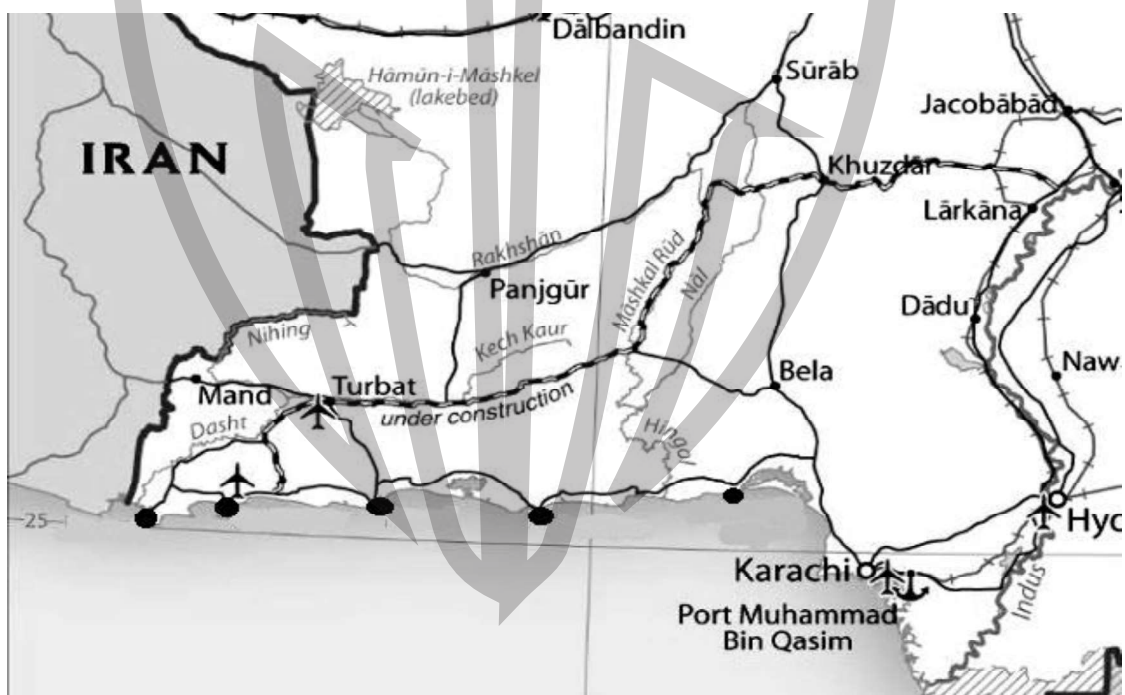

[1]

- (ii) Describe the features and reasons for the success of the integrated fish farming method shown in the figure.

[4]

- (iii) Balochistan has been the hub of marine fishing industry in Pakistan. Study the figure given below and mark the areas of '**Ormara**' and '**Sonmiani**' with '**A**' and '**B**' respectively.

[1]

- (iv) Describe the importance of Value Added Services in Fishing Industry.

[2]

(d) Read the following statement:

To what extent do you agree that fishing industry could only be promoted by setting research projects covering both marine and inland fisheries allied with aqua – culture?

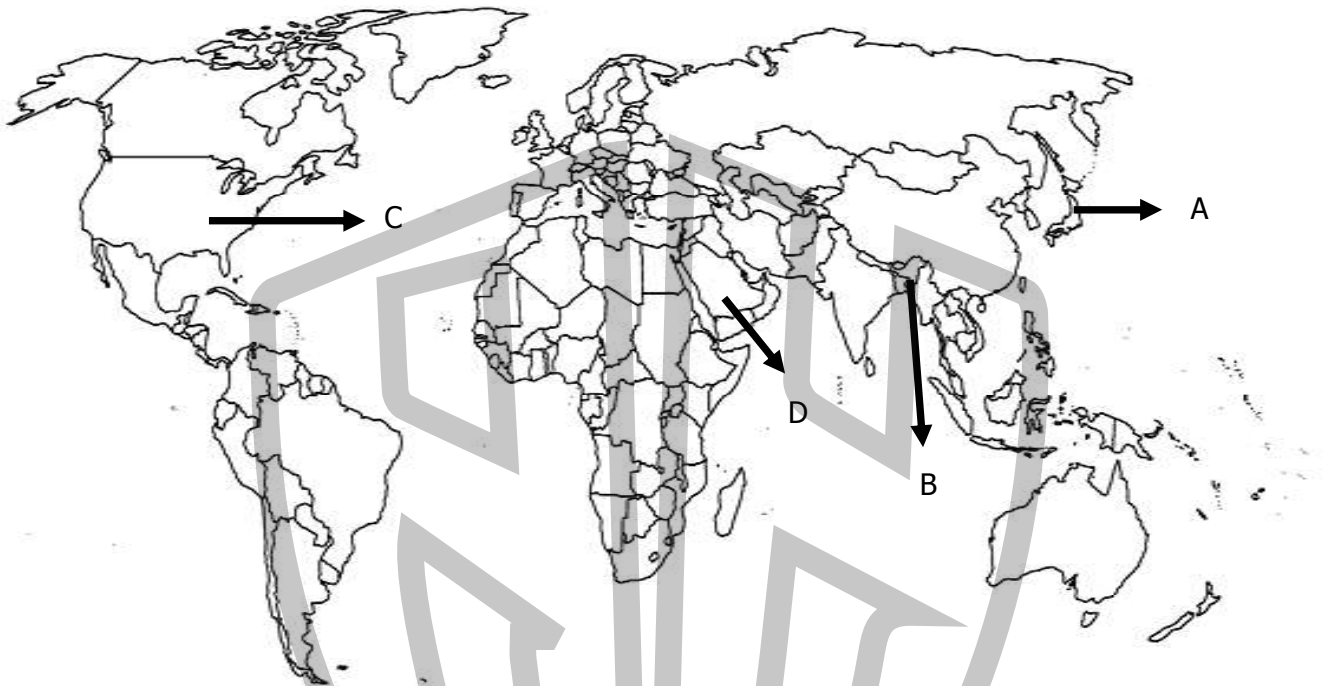

Give reasons to support your answer by giving examples and places you have studied.

[6]

[TOTAL: **25 MARKS**]

Q2. International trade is the exchange of capital, goods, and services across international borders or territories, which could involve the activities of the government and individual

(a) Study the given map:

(i) Name **any three** countries marked A, B, C and D on the map and write one import and export each carried with Pakistan.

- COUNTRY A: _____
IMPORT: _____
EXPORT: _____
- COUNTRY B: _____
IMPORT: _____
EXPORT: _____
- COUNTRY C: _____
IMPORT: _____
EXPORT: _____
- COUNTRY D: _____
IMPORT: _____
EXPORT: _____

[3]

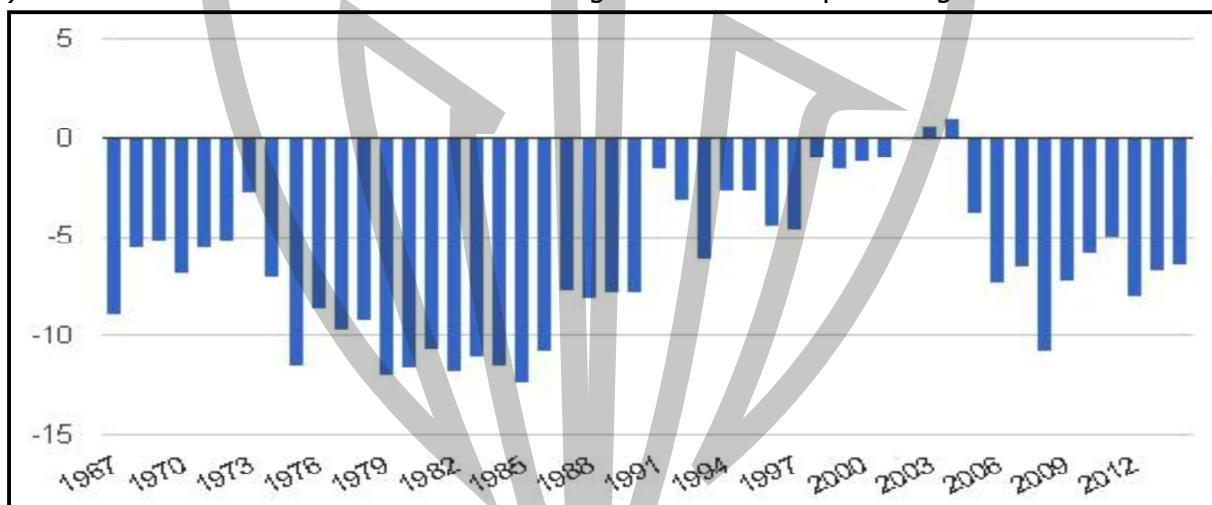

- (ii) Describe what can be made to make trade easier with any one country you have selected in Q2(a) (i)

[3]

- (iii) State the difference between Balance of Trade and Balance of Payment.

[2]

- (b) The trade balance for Pakistan has been negative due to low percentage of GDP.

- (i) What is meant by the term Negative Trade Balance?

[2]

- (ii) Give reasons for a negative balance of Trade in Pakistan.

[3]

- (c) The Trade Development Authority of Pakistan (TDAP), which was established on November 8, 2006, under a Presidential Ordinance, shall have the Ministry of Commerce as its administrative ministry. TDAP is the successor organization to the Export Promotion Bureau (EPB) and is mandated to have a holistic view of global trade development rather than only the 'export promotion' perspective of its predecessor.

- (i) What are the objectives of TDAP formally known as EPB?

[3]

- (ii) Explain why foreign exchange is considered very important for the development of Pakistan?

[3]

(d) Read the following two statements:

The countries of the European Union have a large demand for goods such as clothes and sports goods. Pakistan can produce these goods cheaply.

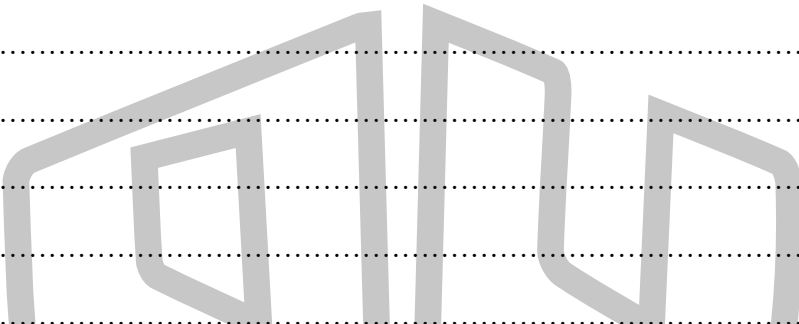

Karachi has the best geo-strategical location for its development as the main centre for Pakistan's overseas trade

Which statement do you agree with more? Give reasons for your answer with reference to places or examples you have studied in Pakistan to support your answer.

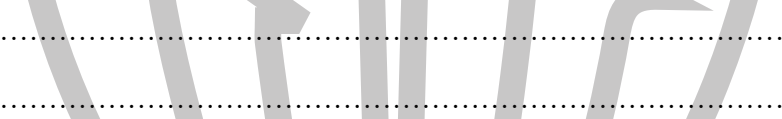

[6]

[TOTAL: 25 MARKS]

[4]

[3]

[illegible]

.....
 [4]

Q4. Suggest three reasons why these forests are being cut down.

.....

 [3]

Q5. What is sustainable forestry?

.....

 [2]

Q6. Describe three physical factors which influence the distribution of forests.

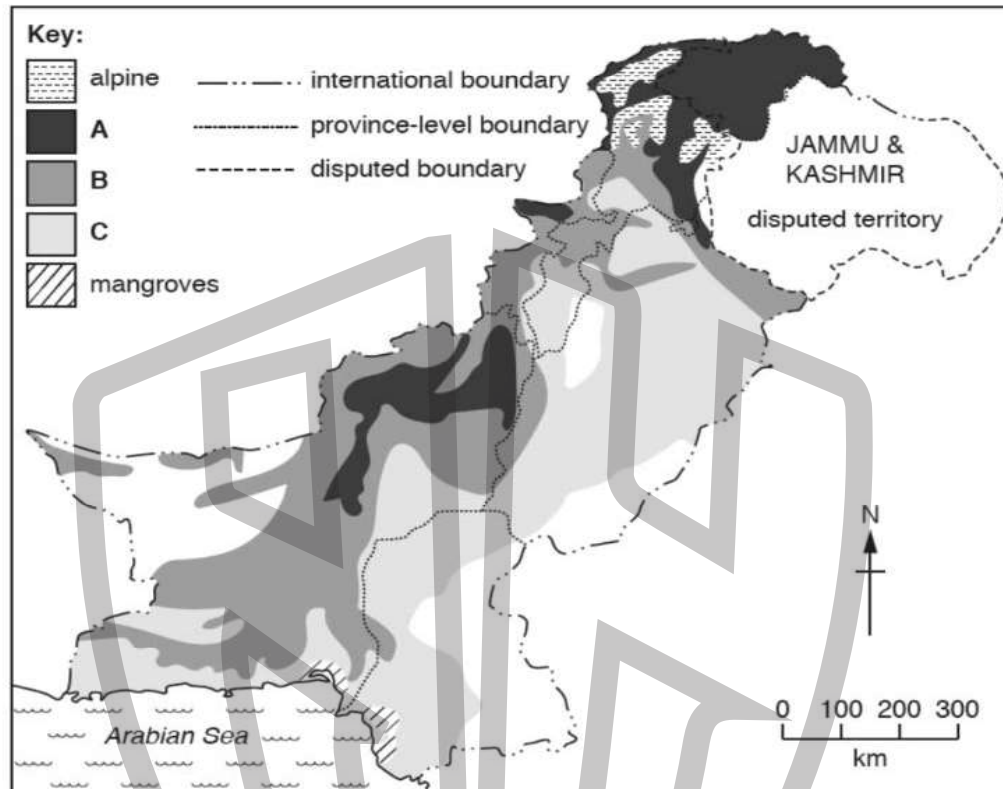

1.

2.

3.
 [3]

Q7.

(a) (i) Study Fig. 2.1, a map showing forest types in Pakistan.

(a) (i). Name the forest types shown at A, B and C:

A.

B.

C. [3]

Q8. (i) Describe **two** natural characteristics of mangrove forests.

.....

.....

.....

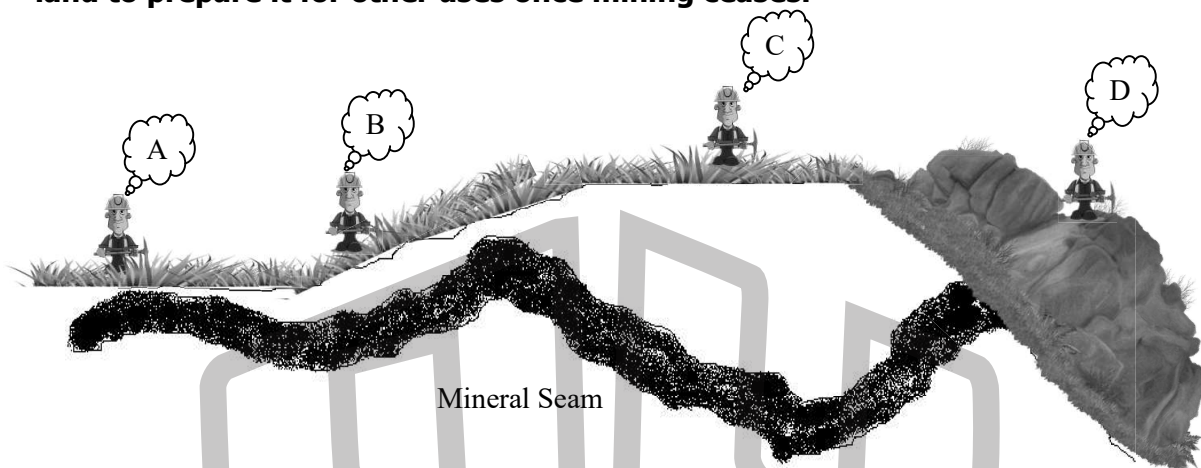

[2](ii) Describe **two** functions of forests.

.....

.....

.....

- Q1. Mining of rock and metals has been done since prehistoric times. Modern mining processes involve prospecting for ore bodies, analysis of the profit potential of a proposed mine, extraction of the desired materials and finally reclamation of the land to prepare it for other uses once mining ceases.

(a) Study the figure showing a mining site

- (i) Name the methods of mining which can be used for the selective areas marked **A, B, C & D**

MINING METHOD FOR A: _____

MINING METHOD FOR B: _____

MINING METHOD FOR C: _____

MINING METHOD FOR D: _____

[4]

- (ii) Name any two (02) organizations in Pakistan involved in the mining sector.

[2]

(b) Mining is an important industry in Pakistan. Pakistan has deposits of several minerals.

- (i) Minerals can generally be classified into Metallic & Non Metallic categories. The table shows four minerals extracted in Pakistan. State whether you think each has a **METALLIC** or **NON METALLIC** characteristics.

[2]

MINERALS EXTRACTED	METALLIC / NON METALLIC
Copper	
Gypsum	
Bauxite	
Limestone	

- (ii) Mining in Pakistan is a dangerous job; especially coal mining, as safety procedures are often neglected and accidents are quite common. Suggest any three (03) reasons, for mining being a minor sector contributing towards the economy of Pakistan.

✓ _____

✓ _____

✓ _____

[3]

- (c) The Khewra Salt Mines are located in an administrative subdivision of Jhelum District, Punjab Region. It is considered as world's oldest and biggest salt mines.

- (i) Describe how the mining and extraction of rock salt has influenced the environment and the lives of people near Khewra Salt mines.

[3]

- (ii) Name any two (02) uses of Rock Salt.

✓ _____

✓ _____

[2]

- (iii) Mining has undoubtedly an adverse affect upon the eco – system and the environment. Suggest some possible solutions to reduce this effect upon the environment.

[3]

(d) To what extent do you agree that mining and exploration of valuable minerals in Pakistan is more important than depending on natural resources of other countries to solve the energy crisis.

Give reasons for your answer and refer to places and examples you have studied to support your answer.

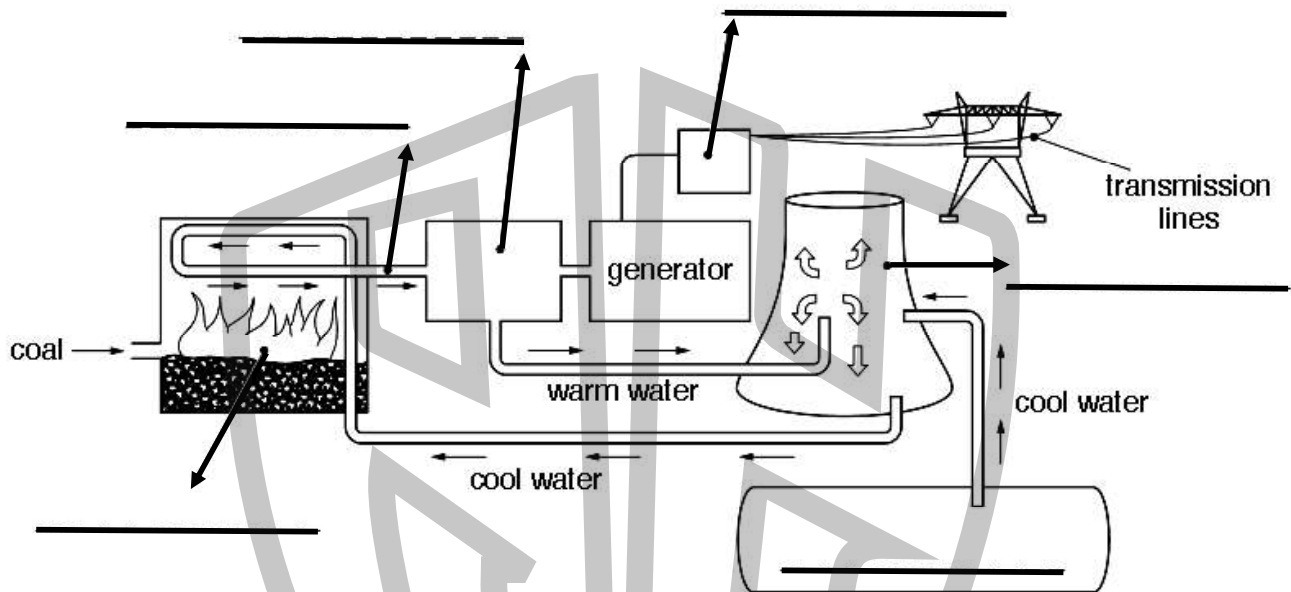

[6]

[TOTAL: **25 MARKS**]

- Q2. The progress of any country depends upon the power resources provided by nature. The power resources not only fulfill the electricity requirement of the country but also play an important role in the industrial development of the country.**

(a) Study the diagram which shows a thermal power station in Pakistan.

- (i) Choose the terms mentioned below and use them to label the diagram in the space provided. [3]

RESERVOIR

**TRANSFORMER
COOLING TOWER**

**BOILER
STEAM**

TURBINE

- (ii) Explain why burning fossil fuels in power stations is unsustainable?

[4]

(b) Study the figure which shows energy sources by percentage in Pakistan.

(i) Name the two largest source of energy.

- _____
- _____ [2]

(ii) Which source given in the figure is renewable?

_____ [1]

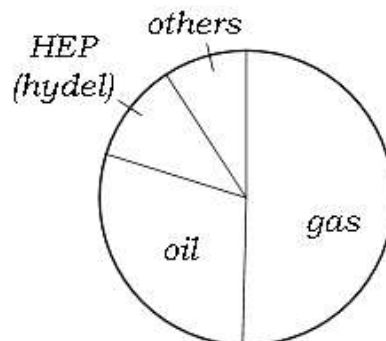

(iii) Suggest **two** sources of energy in the 'others' sector.

- _____
- _____ [2]

(iv) Name an HEP (Hydel) power station and state the name of the river on which it is built.

NAME: _____

RIVER: _____ [2]

(c) Hydroelectricity is the term referring to electricity generated by hydropower; the production of electrical power through the use of the gravitational force of falling or flowing water. It is the most widely used form of renewable energy

(i) Why HEP (Hydel) is an important source of electricity in Northern Pakistan?

 _____ [3]

(ii) Why can the supply of power from these stations be unreliable?

 _____ [2]

(d) Read the following statements:

Construction of Iran – Pakistan gas pipeline project will help to a great deal in solving the energy crisis of Pakistan.

The use of renewable energy resources should replace the conventional non – renewable energy methods due to its existence over wide geographical areas in Pakistan.

Which statement do you agree with more? Give reasons for your answer and refer to places and examples you have studied to support your answer.

The image shows the crest of the University of Cambridge, which is a shield divided into four quadrants. The top-left quadrant contains a book, the top-right contains a lion passant guardant, the bottom-left contains a ship, and the bottom-right contains a lion passant guardant. The shield is surrounded by a decorative border. The crest is rendered in a light gray color on a white background.

[6]

[TOTAL: 25 MARKS]

Q1.

(c) Study Fig. 3 which shows some examples of the four main uses of oil.

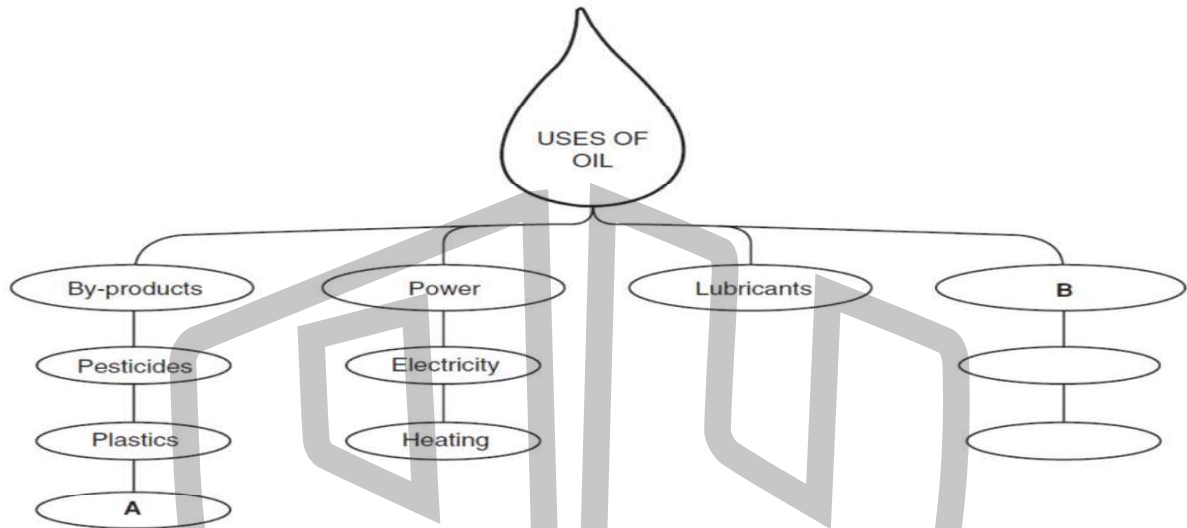

Fig. 3

- (i) Name another by-product **A**. [1]
(ii) Name the fourth main use of oil **B**. [1]
(iii) With reference to Fig. 3 and using your own knowledge, explain how oil products are important to **either** farming **or** manufacturing.

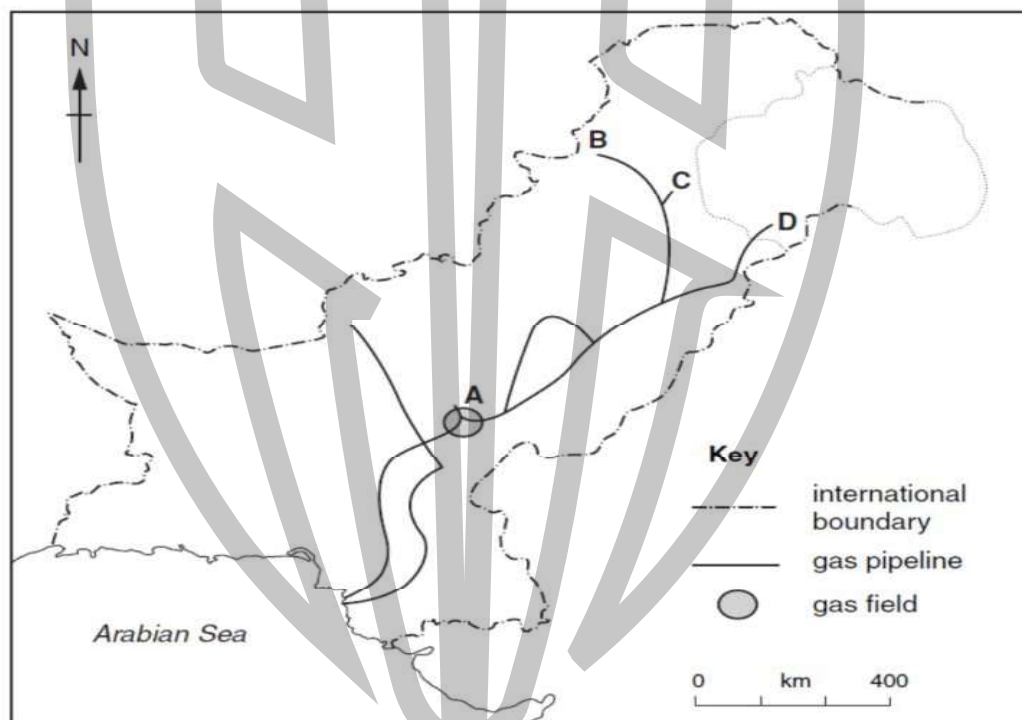

[1]

[1]

[4]

- (iii) Why is natural gas an important fuel in Pakistan?**

Q2. (a) Study Fig. 4, which shows the gas pipelines in Pakistan. [4]

(i). Name the gas field A.

..... [1]

(ii) Name the cities B, C and D at the ends of the gas pipelines.

B [1]

C [1]

D [1]

(iii) State **two** ways in which gas can be supplied to areas away from pipelines.

.....
 [2]

Q3. Describe the advantages and disadvantages of developing nuclear power.

.....

 [4]

Q4. (a). Name three ways by which coal is mined.

1.
 2.
 3. [1]

(b). Why is coal produced in Pakistan describe as low quality?

.....

 [3]

Q5. What is 'load shedding' and how does it affect industry and business in Pakistan.

..... [2]

Q6. How may factories try to overcome the problem of unreliable electricity supply from the national grid? Why is it important for them to do so?

..... [2]

Q7. Why is it important that more renewable energy schemes are developed in Pakistan?

..... [4]

(c) (i) Fig. 5 is a diagram of a thermal power station.

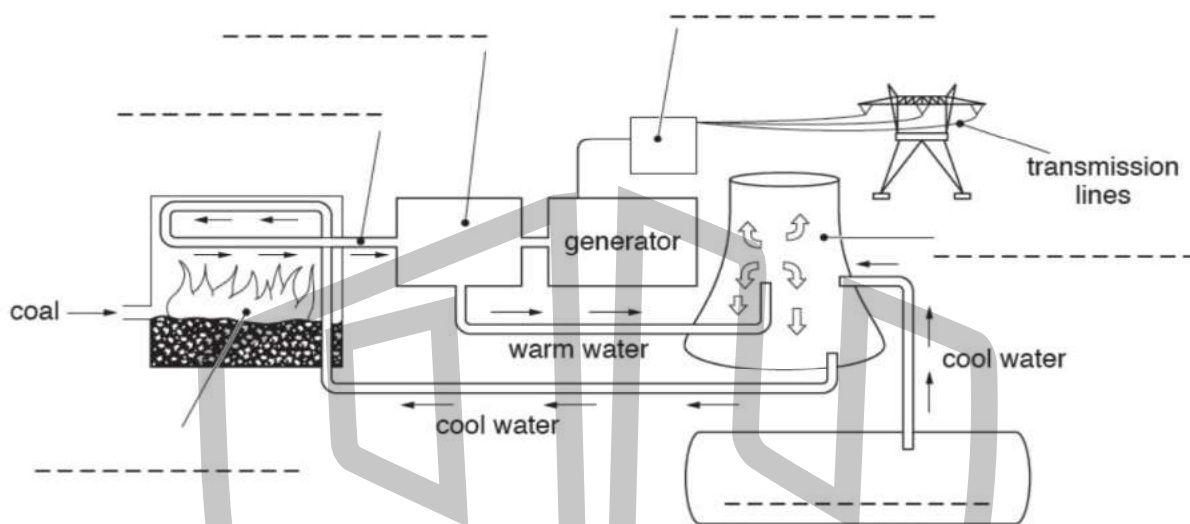

Fig. 5

Choose **three** terms from the list below and use them to label the diagram in **three** of the spaces provided.

reservoir transformer boiler turbine cooling tower steam [3]

(a) (i) Study Fig. 7 which is a diagram of an HEP (Hydel) power station.

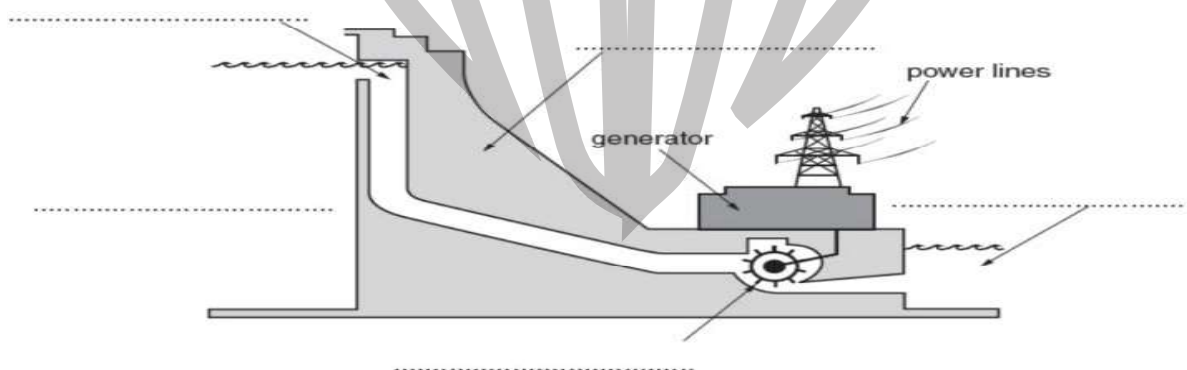

Fig. 7

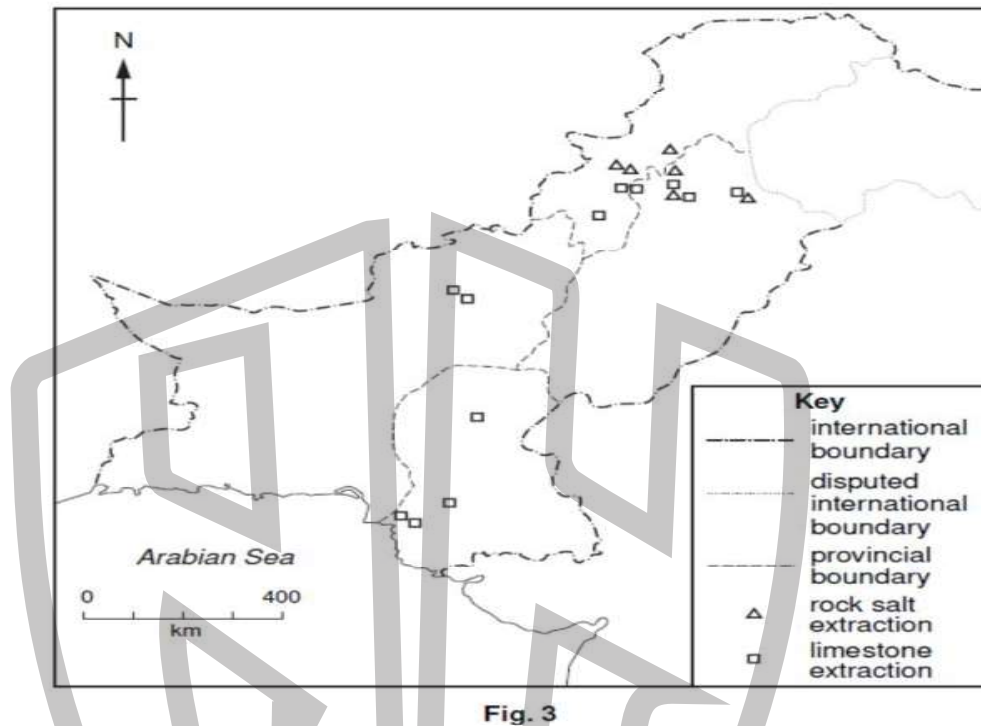

A. On the diagram place an arrow or arrows to indicate the direction of movement of water through the power station.

B. Choose **two** terms from the list below and use them to label the diagram in **two** of the spaces provided.

outflow turbine reservoir dam [3]

Q8.

(a) Study Fig. 3, which shows limestone and rock salt extraction.

(i) Describe the distribution of limestone extraction in Pakistan.

.....

.....

.....

.....

.....

..... [3]

(ii) Limestone and rock salt are both called 'bulky goods'. What is the cheapest form of transport for these goods?

..... [1]

(iii) Why is the supply of limestone to most areas likely to be cheaper than rock salt?

.....

..... [1]

Q1. Industry is the production of goods or services within an economy. The major source of revenue of a group or company is the indicator of its relevant *industry*. When a large group has multiple sources of revenue generation, it is considered to be working in different *industries*.

(a) Human Inputs play a very vital role in the development of an Industry.

(i) Explain the importance of the following human inputs to an industry in one word. The first one has been done for your perusal.

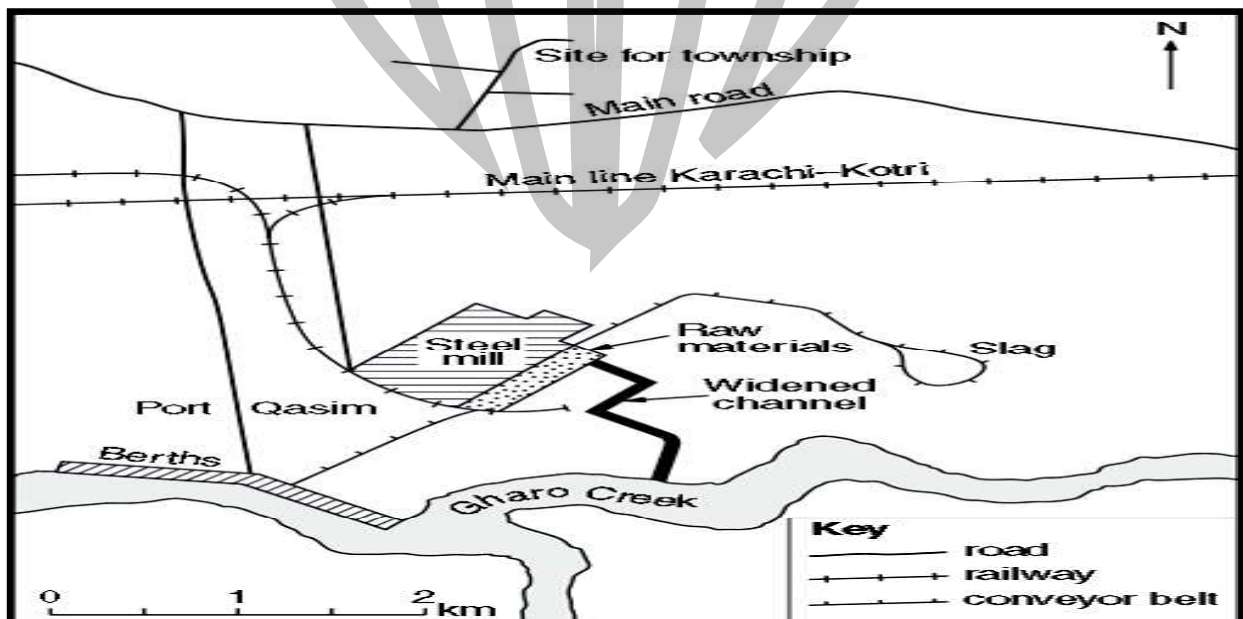

- | | |
|--|----------------|
| ➤ Roads and Railways for | TRANSPORTATION |
| ➤ Telephones and communication network for | _____ |
| ➤ Machineries for | _____ |
| ➤ Capital for | _____ |
| ➤ Labour for | _____ |

[2]

(ii) Why it is difficult to provide human inputs for an industry which is far from a developed area?

[3]

(b) Study the figure which shows the location of Pakistan Steel Mill at Pipri

- (i) Name any two raw materials needed for the production of Steel

[1]

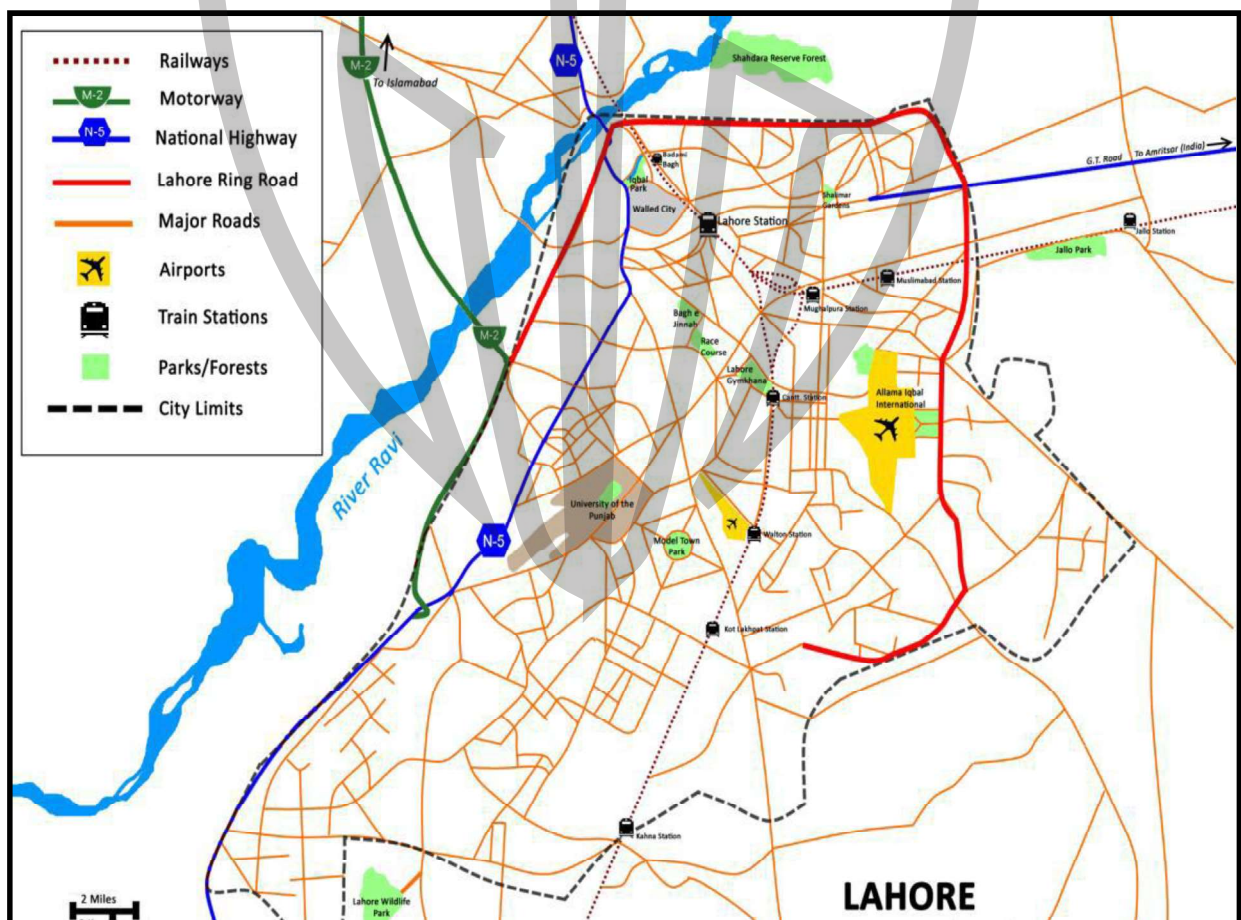

- (ii) With reference to the figure, explain why Pipri was chosen to be the site for the construction of Pakistan Steel Mill?

[3]

- (iii) Name any two products that are manufactured at Pakistan Steel Mill.

[1]

- (c) Study the picture which shows an Industrial Estate of Lahore.

- (i) What are the advantages for an industrial estate to be located in a major city like Lahore or Karachi?

- (ii) Karachi Export Processing Zone or KEPZ, is located adjacent to the Landhi Industrial Area in Karachi, Sindh, Pakistan.

- i. Describe what does the term Export Processing Zone means?

- ii. Explain the importance of an Export Processing Zone to industrial cities like Lahore and Karachi.

- (iii) Complete the passage below by **circling** the correct answer.

Special Industrial Zones are specific areas that are located in **(undeveloped / developed / industrial)** areas. The infrastructure facilities in these areas have to be developed by the **(Government / Local People / Companies)**. It opens up employment opportunities for people, providing work for the local people. It also guarantees better living standards. On the other hand Special Economic Zones are developed by the **(Government / Local People / Companies)** to provide exemptions from business regulations and certain taxes. Special Economic Zone are also known as **(Market Oriented Industries / Trade Zones / Industrial Estates)**

[TOTAL: 25 MARKS]

Q1. Describe the factors that have helped and those that have hindered the production of the raw material.

[4]

Q2. Explain why Karachi is the largest Cotton Textile manufacturing center in Pakistan?

[4]

Q3. Explain the advantages and disadvantages of increasing Cotton textile production in Pakistan.

..... [4]

Q4. At Sugar mills the milling season lasts only for 160 days. What problems do this cause and how might they be overcome?

..... [4]

..... [4]

Q5. (a). Name an oil refinery near the coast, and give one reason why it is there.

Oil Refinery

Reason

..... [2]

(b). Name an oil refinery in the province of Punjab, and give one reason why it is there.

Oil Refinery

Reason

..... [2]

Q6. Explain why the Steel mill was located at Pipri.

..... [4]

Q7. What are the advantages for the industries on the Quaid-e-Azam Industrial Estate of being situated in a major city like Lahore?

..... [4]

Q8. (a). What are Export Processing Zones (EPZs)?

..... [1]

(b). Describe the features of an EPZ.

.....

.....

.....

.....

.....

.....

..... [3]

Q9. With the help of an example, explain the importance of Cottage industries to village life in Pakistan.

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

..... [4]

Q1. Why is the United Kingdom still an important trading Partner for Pakistan but not as important as it used to be?

.....

.....

.....

.....

.....

..... [3]

Q2. Study the world map, showing some of Pakistan's main trading partners.

On the map:

- (i) Name, in their correct places, two of the trading partners shown. [2]
- (ii) Draw the route taken to bring imported petroleum to Karachi. [1]
- (iii) Name one of the sea areas through which the route you have drawn for (a) (ii) passes [1]

Q3. Why is the government keen to increase the export of engineering goods?

.....

.....

.....

.....

.....

..... [4]

Q4. How can Pakistan increase foreign exchange earned by trading with a country or trading bloc such as SAARC or the EU?

Q5. Suggest reasons why cotton makes up a large percentage of Pakistan's exports.

..... [3]

Q6. Study Photograph B (Insert), showing Landhi Export Processing Zone, Karachi.

(i) What features show that this is a modern, developed industrial estate?

.....

.....

.....

..... [3]

Q7. Read the following article:

Pakistan produces many goods that could be exported in greater quantities. For a variety of reasons the amount of exports remains low: in 2013 the value of exports was only 13% of GDP.

Explain why it is difficult for Pakistan to sell more of its goods to other countries.

.....

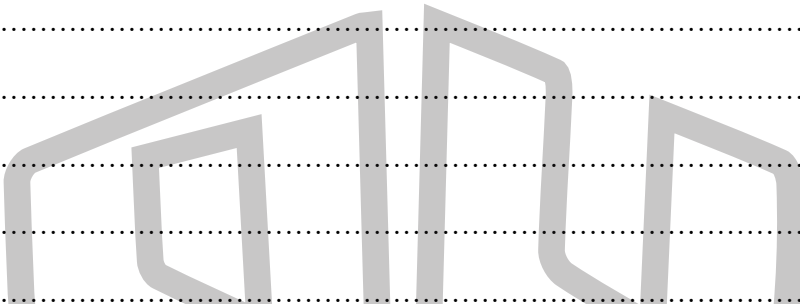

.....

.....

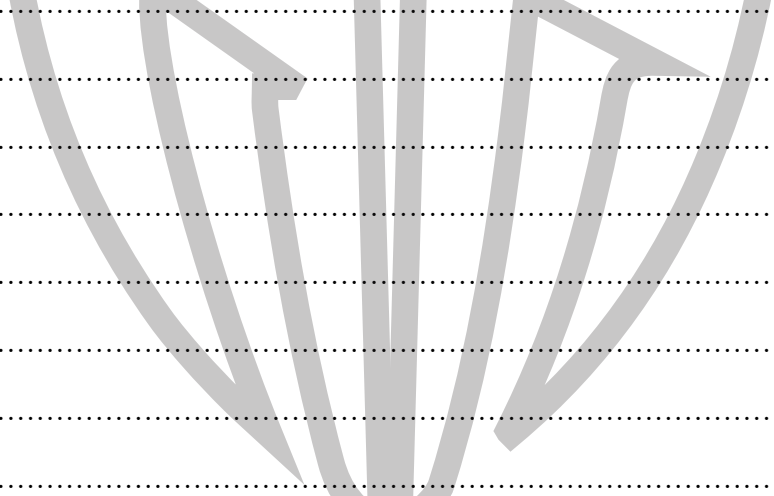

.....

.....

..... [4]

[4]

[4]

.....

.....

.....

.....

.....

.....

 [4]

Q3. With the help of examples explain why large areas of Pakistan have no railways and only a few roads, which are mostly kacha.

.....

 [4]

Q4. Why are the ports in Balochistan small.

.....

 [4]

Q5. Describe the features of Lahore Dry Port that can be seen in Photograph A. [4]

..... [4]

(iii) Why are dry ports important to the economy of Pakistan?

.....

.....

.....

.....

..... [3]

Q6. What problems are therefore road construction and maintenance in mountainous areas?

..... [4]

Q7. Why was the first motorway in Pakistan built between Islamabad and Lahore?

..... [3]

Q8.

(a) Study Fig. 3, a map showing three major cities and two major roads.

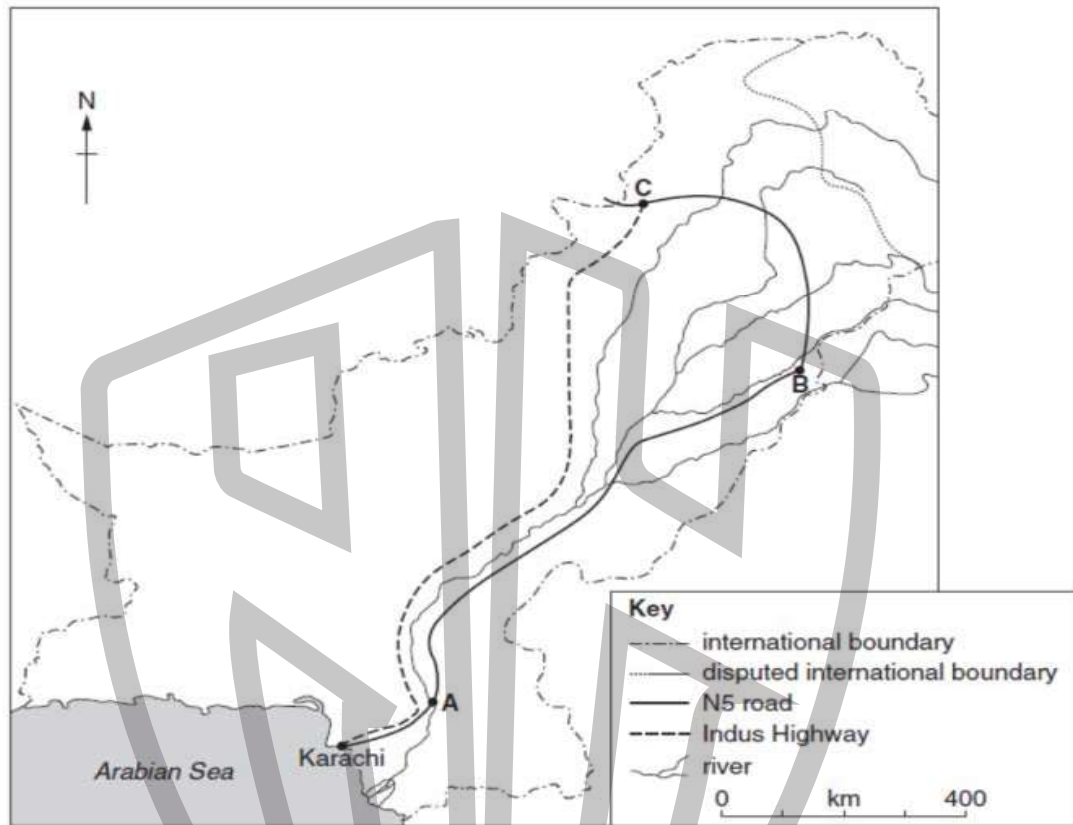

Fig. 3

(i). Using the map, describe the route of the N5 road, starting from Karachi.

.....

.....

.....

.....

.....

.....

..... [3]

(ii). Compare this to the route of the Indus Highway.

.....

.....

.....

..... [2]

Q9. Explain how better transport routes could help to increase development in Balochistan.

.....

.....

.....

.....

.....

.....

.....

.....

..... [4]

Q10. (i) State **three** ways in which this company can be contacted.

1.
2.
3. [3]

(ii) Explain the importance of good communications to a business such as Cotton Fabrics International.

.....

.....

.....

.....

.....

.....

.....

.....

Q11. Study Photograph.

- (c) Study Fig. 10 which gives information about the number of internet users and telephone lines in Pakistan.

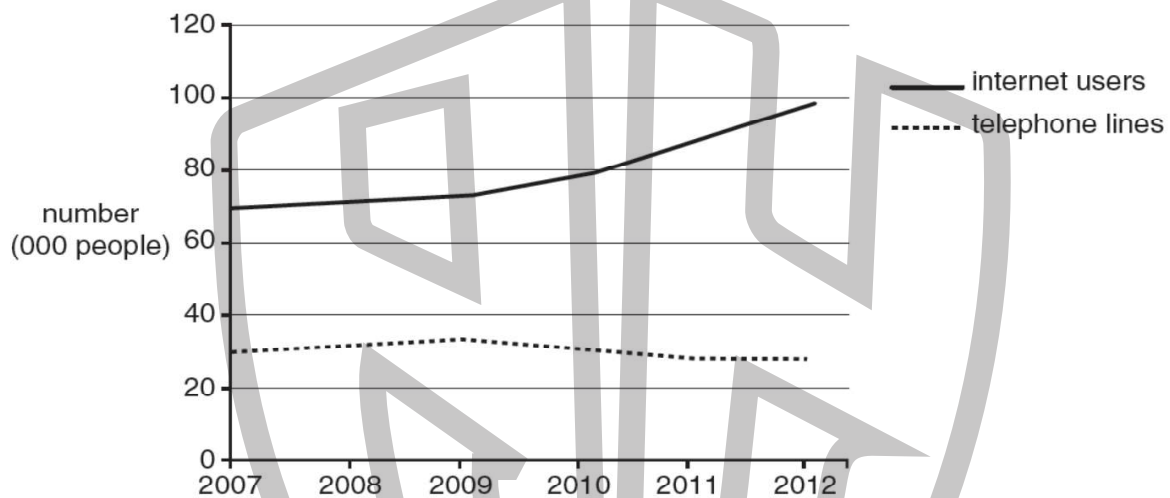

Fig. 10

- (i) How many more people were using the internet in 2012 than in 2007?

..... [1]

- (ii) A. Describe **one** difference between the number of internet users and the number of telephone lines over the period 2007 to 2012.

..... [1]

- B. Suggest **one** reason for the change in the number of telephone lines over the same period.

.....

..... [1]

- (iii) What problems might there be in extending Information Technology (IT) throughout Pakistan?

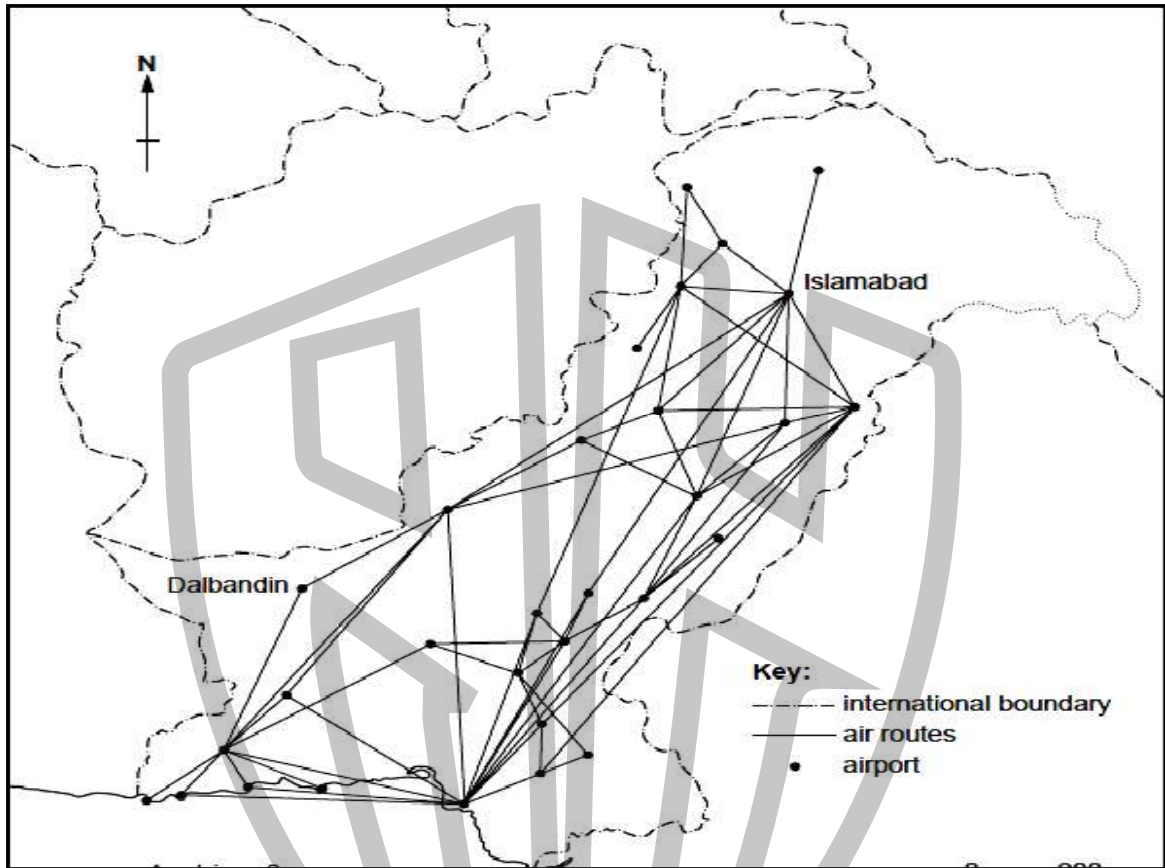

.....

.....

.....

Q1. Transport or transportation is the movement of people, animals and goods from one location to another. Modes of transport include air, rail, road, water, cable, pipeline and space

(a) Study the map which shows the air transport routes in Pakistan.

(i) Describe the distribution of air routes in Pakistan.

[4]

- (ii) Explain the reason why there are more air routes in Islamabad than Dalbadin?

[3]

- (iii) Compare the advantages of transporting goods by railways than airways.

[3]

- (b) Communication technology uses channels to transmit information (as electrical signals), either over a physical medium (such as signal cables), or in the form of electromagnetic waves.

- (i) Name any two Telecommunication Organizations in Pakistan.

[2]

- (ii) Describe the importance of telecommunication to education

[3]

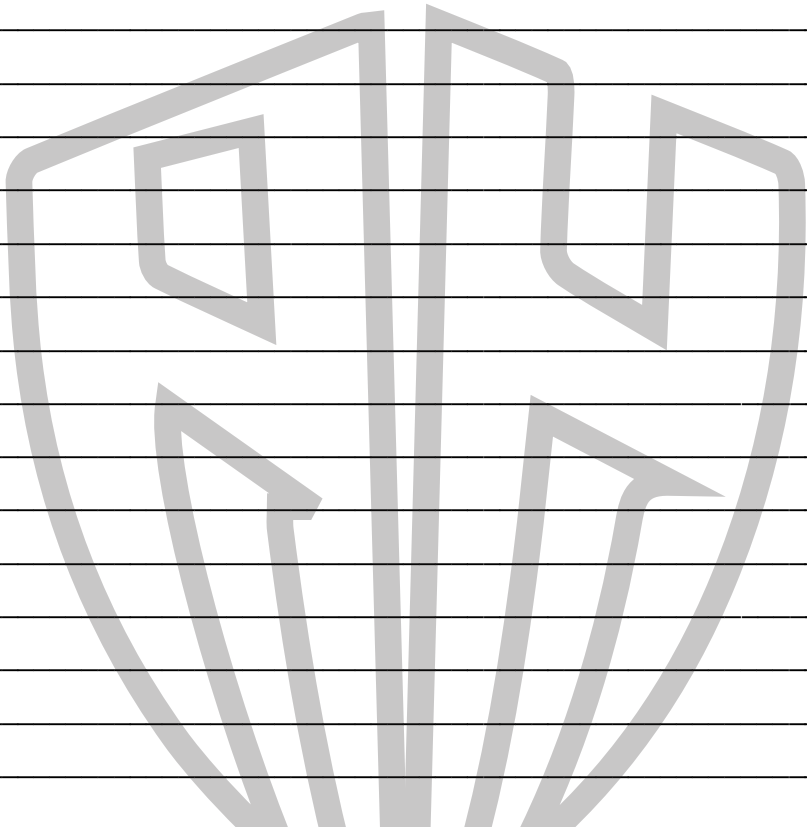

(c) Read the article below, published on Wednesday, April 20, 2016

The Orange Line of Lahore Metro is an under construction line of the Lahore Metro network. Once completed, it will connect Raiwind, Multan Road, Mcleod Road, Lahore Junction and the G.T Road. It will be the first line of the Lahore Metro, which is country's first mass rapid transit train system. It is financed and developed by the Government of China as a part of the China–Pakistan Economic Corridor. The corridor will be capable of ferrying up to 30,000 passengers.

- (i) To what extent, these projects like Orange line of Lahore Metro can help in reducing the traffic problems in Lahore?

[4]

Explain your answer with reference to the examples and places you have studied.

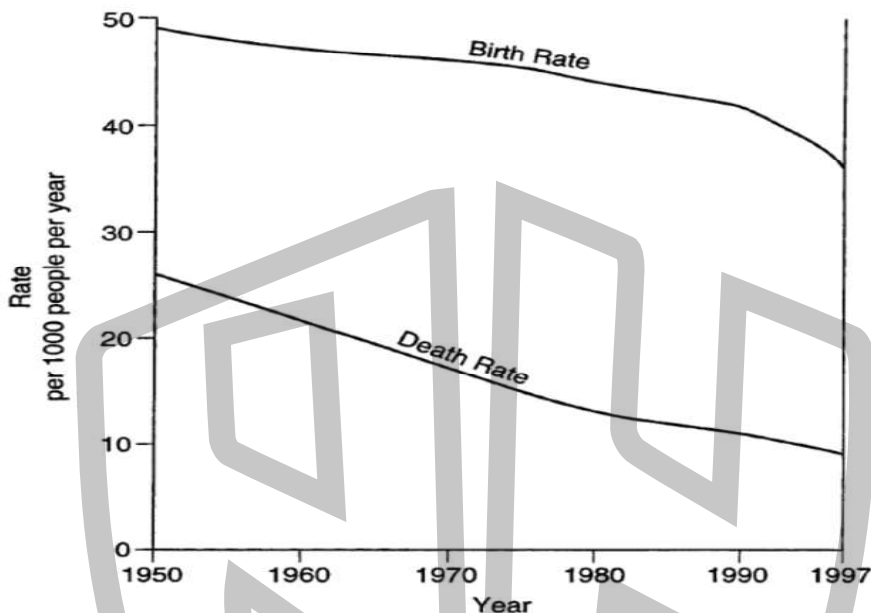

[6]

[TOTAL: 25 MARKS]

Q1.

(a) Fig. 5, below, shows how the birth rate and death rate have changed in Pakistan since 1950.

(i). What was the death rate per 1000 people in 1990?

..... [1]

(ii). What was the death rate per 1000 people in 1997?

..... [1]

(iii). What was the rate of natural increase in 1950?

..... [1]

(iv). What was the rate of natural increase in 1990?

..... [1]

(v). Pakistan continues to have a high birth rate but a very low death rate. How is this affecting the total population of Pakistan?

..... [1]

(b) (i). Why has the death rate fallen between 1950 and 1997?

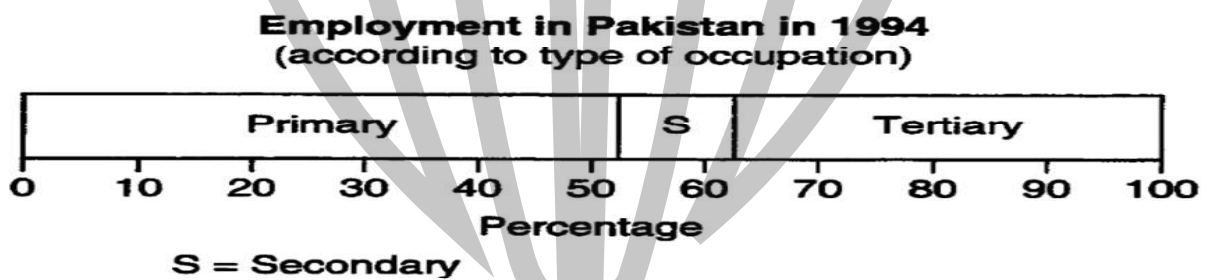

.....

..... [4]

(ii). Give three reasons why the birth rate has remained high.

..... [3]

Q2. Study the graph Fig. 5 which shows employment in Pakistan in 1994 according to the type of occupation.

(i). With the help of an example explain, what 'primary occupation means.

..... [2]

(ii). Why is so many of Pakistan's workforce employed in primary occupations?

[4]

(iii). Using Fig. 5, state the percentage employed in secondary occupation in 1994.

..... [1]

(iv). Name two example of 'tertiary occupations'.

[2]

(v). Why is percentage employed in tertiary occupation increasing?

[4]

[3]

(i). why is illiteracy so high?

[3]

(i). Why has Pakistan receive so many refugees from Afghanistan?

.....

.....

.....

.....

.....

 [4]

(ii). What problems for Pakistan have resulted from this immigration of Afghan refugees?

.....

 [4]

(iii). Name one area and one city of Pakistan which have been especially affected by the influx of Afghan refugees.

Area City [1]

(iv). Many of the refugees are contributing to the economy of Pakistan by working in the lorry transport business or trading as shopkeepers. Are these primary, secondary or tertiary occupations?

..... [1]

(v). Other Afghan refugees are living as pastoral nomads. Is this primary, secondary or tertiary occupation?

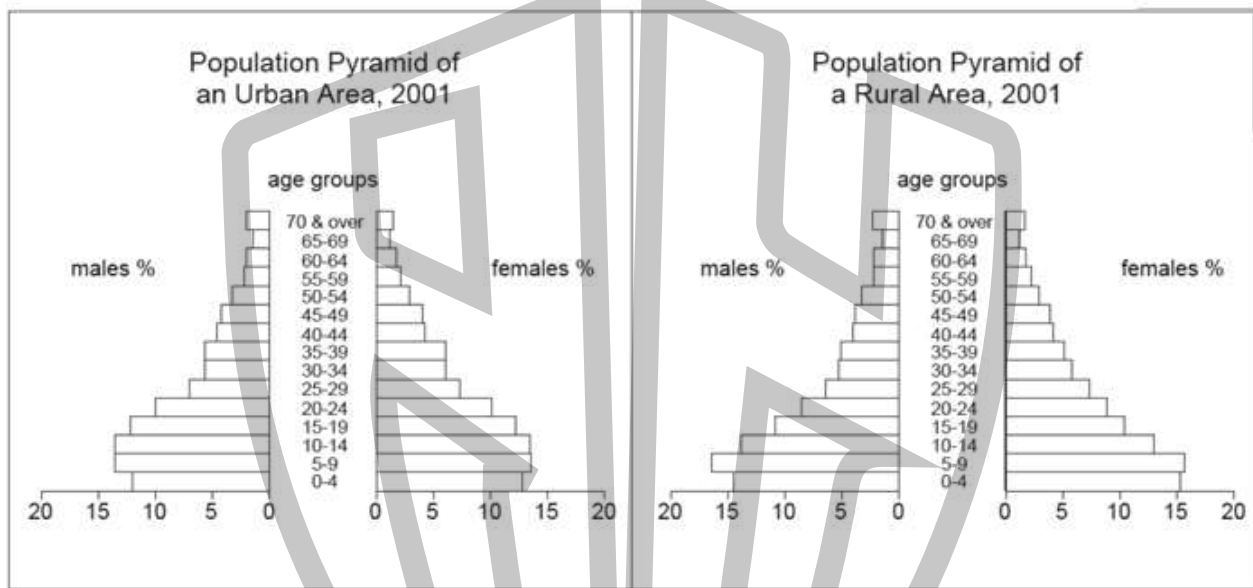

..... [1]

Q5. Many people have moved from rural areas to large cities such as Karachi. Explain the 'pull' of large cities.

.....

..... [4]

Q6. Study Fig. population pyramids showing age distribution in urban and rural areas of Pakistan.

(a). (i). Compare the percentage of children aged 9 and under in rural and urban areas and suggest three reasons for this difference. [4]

..... [4]

(ii). How do both pyramids show that the birth rate has fallen?

..... [1]

(b). (i). What is the percentage of people aged 20-25 in urban areas?

..... [1]

(ii). Is this larger or smaller than the percentage in rural areas?

..... [1]

(iii). What is the main reason for this difference? [1]

..... [1]

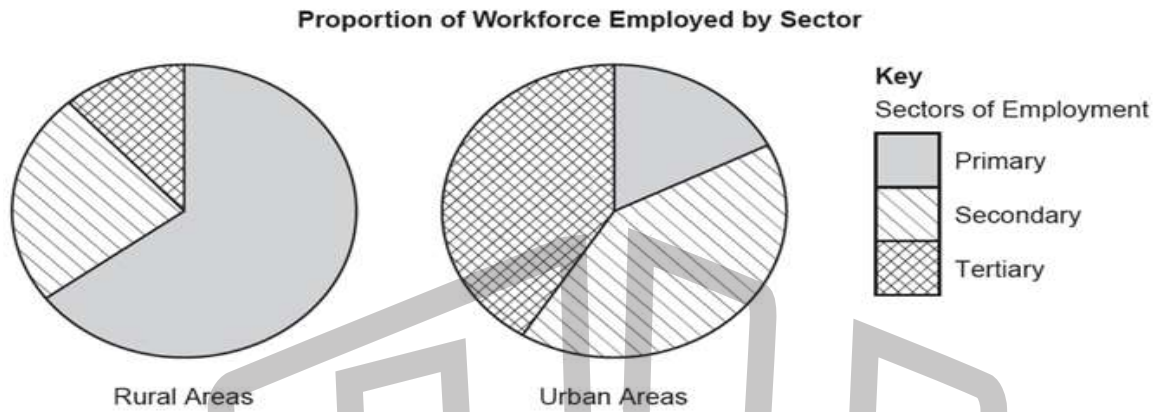

(c) (ii). What improvements may be made in some rural areas to reduce rural-urban migration?

..... [4]

(d). How many improvements in literacy and education help to lower the rate of population growth?

..... [4]

Q7. Study Fig., which shows types of employment in rural and urban areas.

(i). In which areas is the proportion of those employed in the primary sector highest?

[1]

(ii). What is the main type of employment in the primary sector in rural areas?

[1]

(iii). Why is this type of employment probably underestimated?

[1]

(b). Why is there unemployment and underemployment in rural and urban areas?

[4]

(c). Why is the sector of tertiary employment likely to increase more in urban areas than in rural areas?

[4]

Q8. Study Fig. 4, below which shows some population indicators in Pakistan in 1995 and 2002.

Population indicator	Year	
	1995	2002
Birth rate per thousand	41	28
Death rate per thousand	11	8
Infant mortality rate per thousand	97	85
Life expectancy in years	59	64

Fig. 4

(i). Which indicator shows that population growth may be slowing down?

[1]

(ii). Which indicator shows that there could be more children in the future?

[1]

(iii). Why do the statistics show that there could be more people aged over 50 in the future?

[2]

[4]

[illegible]

Q9.

3 (a) Study Fig. 2, a map of population density distribution in Sindh province.

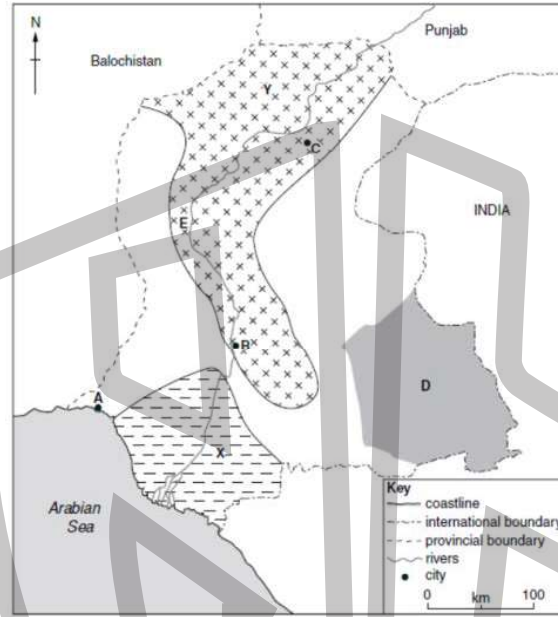

Fig. 2

(i) Name the cities A, B and C.

- A [1]
B [1]
C [1]

(ii) Name the desert D.

- D [1]

(iii) Name the river E.

- E [1]

(b) (i) Explain the physical reasons for a high density of population in area Y.

.....

.....

.....

.....

.....

.....

..... [4]

(ii) Explain the low population density in area X.

..... [4]

Q10. The number of people in age group 60 (+) / old age are likely to have increased since 1998. Explain the effects of this on the economy and development of Pakistan.

..... [4]

Q11. Describe the effects of population growth on the economy and development of Pakistan.

.....

..... [4]

Q12. Suggest why the real number of people unemployed in rural areas may be higher than the figures recorded.

..... [3]

Q13. (b) Study Fig. 8, which shows a population pyramid for Pakistan for 2006.

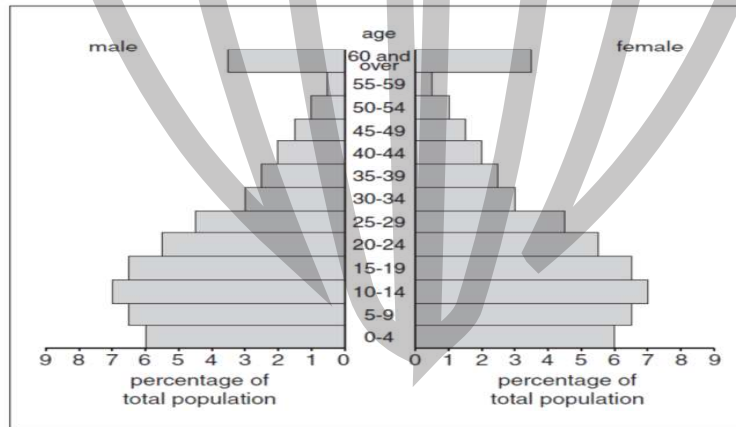

Fig. 8

(i). What percentage of the total population is aged 4 years and under?

..... [1]

(ii). Which age group has the largest percentage?

..... [1]

(iii). What is the percentage of the total population aged 60 years and over? [1]

..... [1]

(iv). Which age groups are called 'the dependent population'?

..... [2]

(c) Study Fig. 8 again.

(i). How is the shape of the population pyramid for Pakistan likely to change from 2006 to 2026?

..... [3]

(ii). The changing shape of the population pyramid affects Pakistan's workforce both now and for the future. Explain the advantages and disadvantages of the changes.

..... [4]

Q14. Explain the push factors, other than low pay, that may cause rural-urban migration.

.....

..... [4]

Q15. (a). Give reasons why percentage of literate people is larger in urban areas than in rural areas.

..... [2]

(b). Using examples, explain why there are many jobs for illiterate and poorly educated people in urban areas.

..... [2]

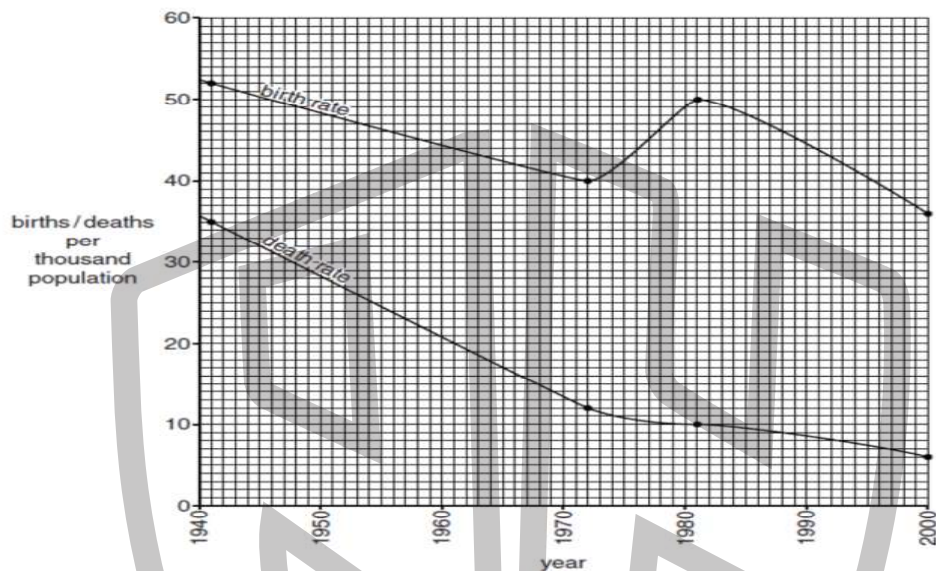

(c). Why do people in villages think that their quality of life will improve if they move to a city?
(d). The government can introduce self-help schemes to improve the living conditions of people in shanty developments and tent cities. Explain the advantages and disadvantages of self-help schemes.

Advantages

Disadvantages

Q16.

(b) Study Fig. 9 which shows birth and death rates of a country.

(i). Describe the main changes in birth rate from 1941 to 2000.

(ii) Complete the following:

NATURAL INCREASE = minus [2]

(iii) Study Fig. 9 again. Circle the year (below) in which the natural population increase was greatest.

1941

1972

1981

2000

[1]

(c) (i) Explain the difference between emigration and immigration.

.....

.....

.....

..... [2]

(ii) Explain the advantages and disadvantages of international emigration for the people of Pakistan.

Advantages

.....

.....

.....

Disadvantages

.....

..... [4]

Q 17. Study Photograph

(i) Give **four** features of the housing shown in the photographs.

- 1.....
- 2.....
- 3.....
- 4..... [4]

(ii) Explain why people live in areas such as those shown in Photographs A and B.

.....

.....

.....

.....

..... [4]

Q18. To what extent can the birth rate of Pakistan be reduced? Explain your answer.

..... [6]

Q19.

- (c) Study Fig. 8 which is a graph showing the changes in population density for different provinces between 1972 and 2011.

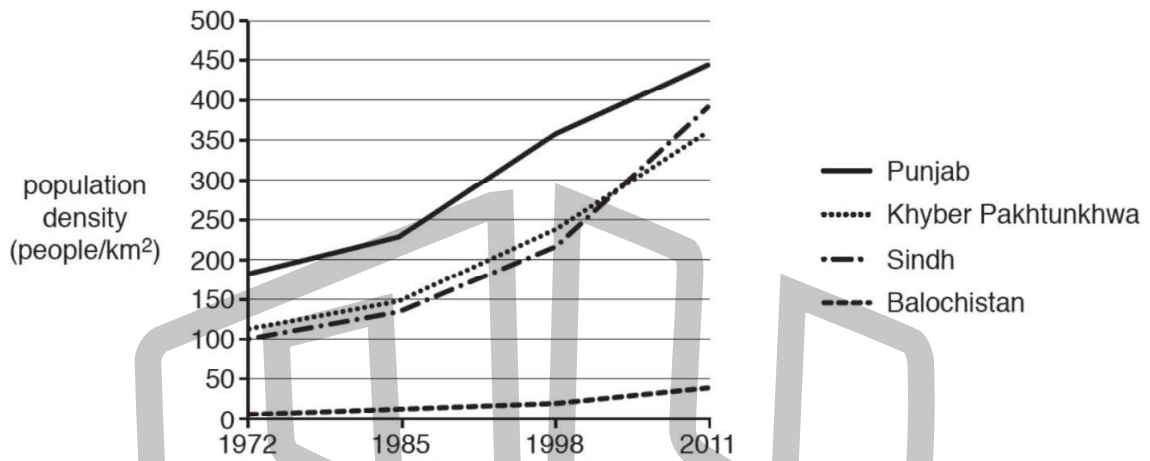

Fig. 8

Describe **two** of the main changes over time that can be seen in this graph.

.....

.....

.....

..... [2]

(d). Read the following two views:

A. The Government should spend more money on development projects in the least densely populated province in Pakistan. This province is behind in development.

B. The Government should spend more money on development projects in the more densely populated provinces. More people live there.

Which view do you agree with more? Give reasons and refer to places or examples you have studied to support your answer.

.....

.....

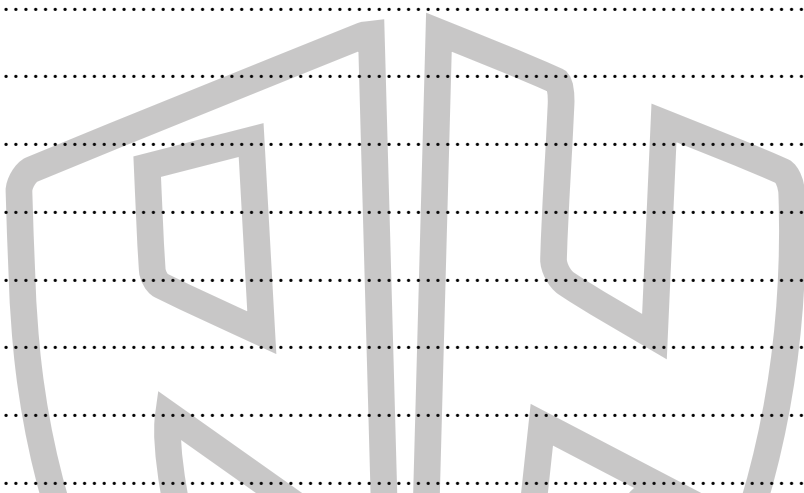

.....

.....

.....

.....

.....

[6]

Q20. (ii) One of the factors affecting population growth is international migration. In recent years Pakistan has experienced more emigration than immigration.

(a). A. What is meant by the term 'immigration'?

[1]

B. Explain what has caused high levels of emigration and the effects of this on the economy of Pakistan?

..... [4]

(c). (i). What is meant by the term 'sustainable population growth'?

.....
 [1]

(ii). Suggest **three** problems that might be caused by unsustainable population growth.

1

 2

 3
 [3]

Q21. (a) Study Fig. 1 which is a map of northern Pakistan.

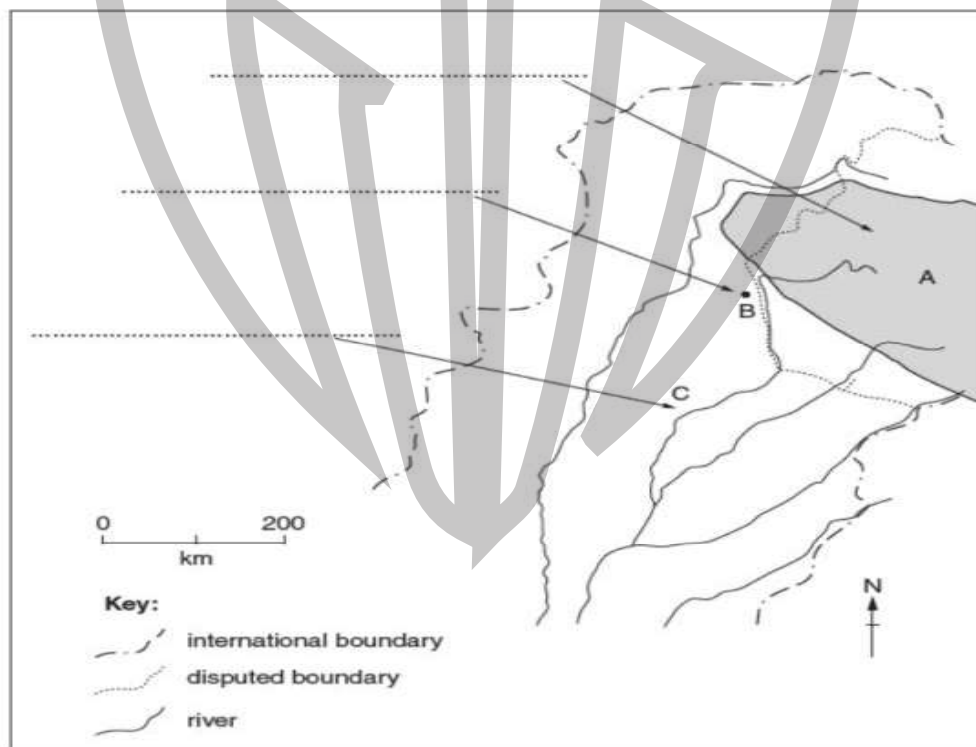

Fig. 1

(i) the map name the following:

- Mountain range A
- City B
- River C

On

[3]

(b). (i). What is meant by the term ‘population density’?

..... [1]

(ii) Which province in Pakistan has the highest population density?

..... [1]

(iii) Explain the physical factors that cause areas such as the province you named in (ii) to have a high population density.

..... [4]

(c). (i) What information is displayed in a population pyramid?

..... [2]

Q22. Suggest two reasons why unemployment is difficult to measure in countries such as Pakistan.

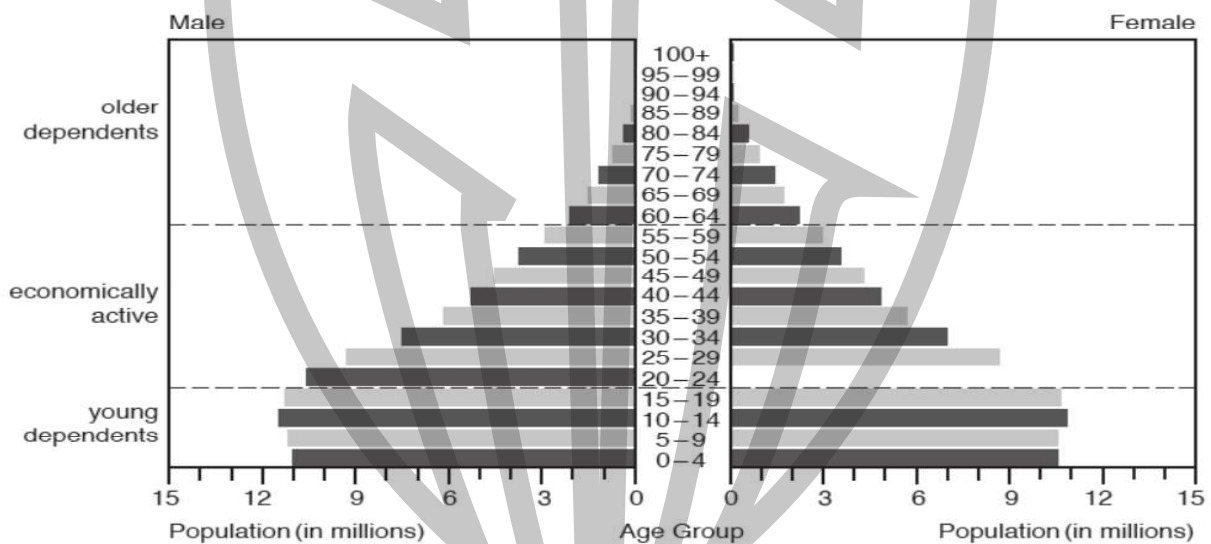

..... [2]

Q23. Describe **three** human factors that cause some areas to have a low population density.

- 1
- 2
- 3 [3]

Q24.

5 (a) (i) Study Fig. 5.1, a population pyramid for Pakistan in 2014.

Complete the graph using the information below:

Females	
Age 20–24	10 million

[1]

(ii) Using Fig. 5.1 describe the population structure of Pakistan.

-
-
-

- [3]
- (ii) Study Fig. 5.2 showing selected population information about Pakistan.

Total population	187 million
Urban population	70.87 million
Rural population	116.13 million
Population growth rate	2.0% per annum
Total fertility rate	3.3 per thousand
Birth rate	26.8 per thousand
Death rate	7.0 per thousand

Fig. 5.2

Using data from Fig. 5.2 **calculate** the natural population increase for Pakistan.
Show your working in the box below.

[2]

(iii) From the list below tick **three** correct reasons for overpopulation:

	Tick (✓)
Too many people	
Use of contraception	
Not enough resources e.g. food, shelter, water	
Immigration	
Poor infrastructure	
Lack of government finance	
Rapid population growth	

Q25. Study Fig. 5.1, which is a diagram of the Demographic Transition Model.

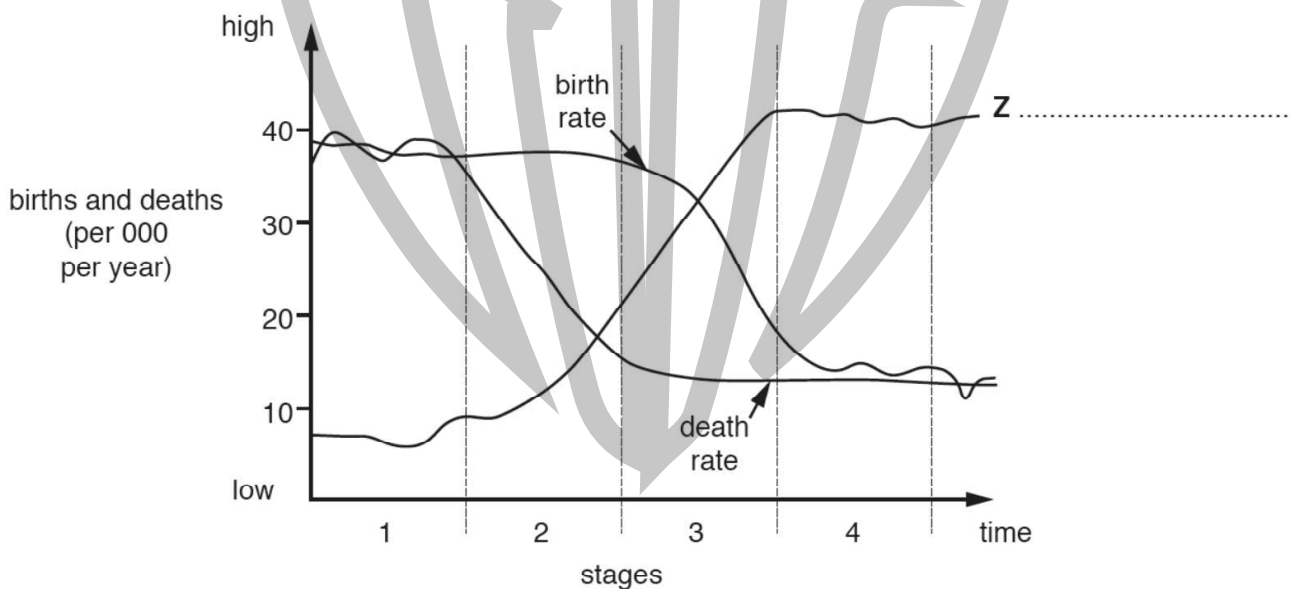

Fig. 5.1

(i) Add a suitable label for line **Z** on Fig. 5.1. [1]

(ii) Describe the changes that occur in Stage 2 of the Demographic Transition Model in Fig. 5.1.

.....

.....

.....

..... [2]

(b) (i) Suggest **three** reasons for a high and fluctuating death rate in Pakistan during Stage 1 of the Demographic Transition Model.

.....

.....

.....

.....

..... [3]

(ii). Explain **two** reasons for a fall in the birth rate in Pakistan during Stage 3 of the Demographic Transition Model. You should develop your answer. [4]

.....

.....

.....

.....

.....

.....

.....

..... [4]

(c) (i) Define the term 'population density'. [1]

.....

..... [1]

(ii) Study Fig. 5.2, a map showing the population density of Pakistan.

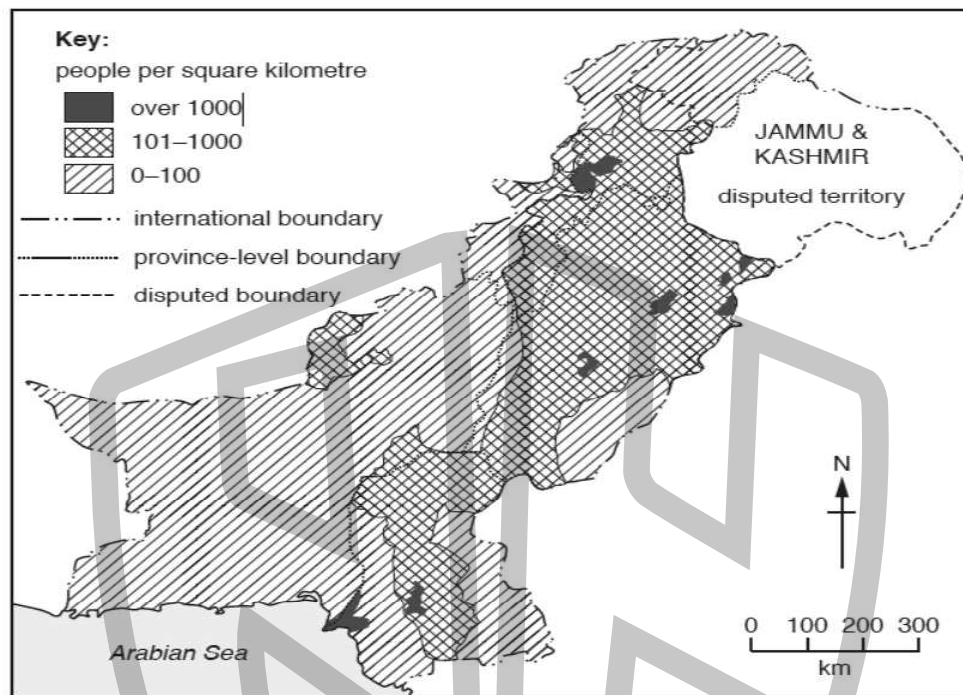

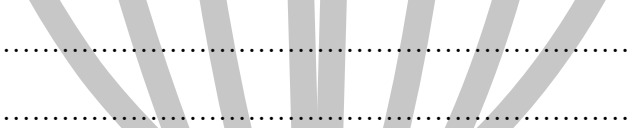

Fig. 5.2

Describe the population density of Pakistan.

[3]

(iii) Suggest reasons for the variation in population density in Pakistan as shown in Fig. 5.2.

.....

.....

.....

.....

..... [5]

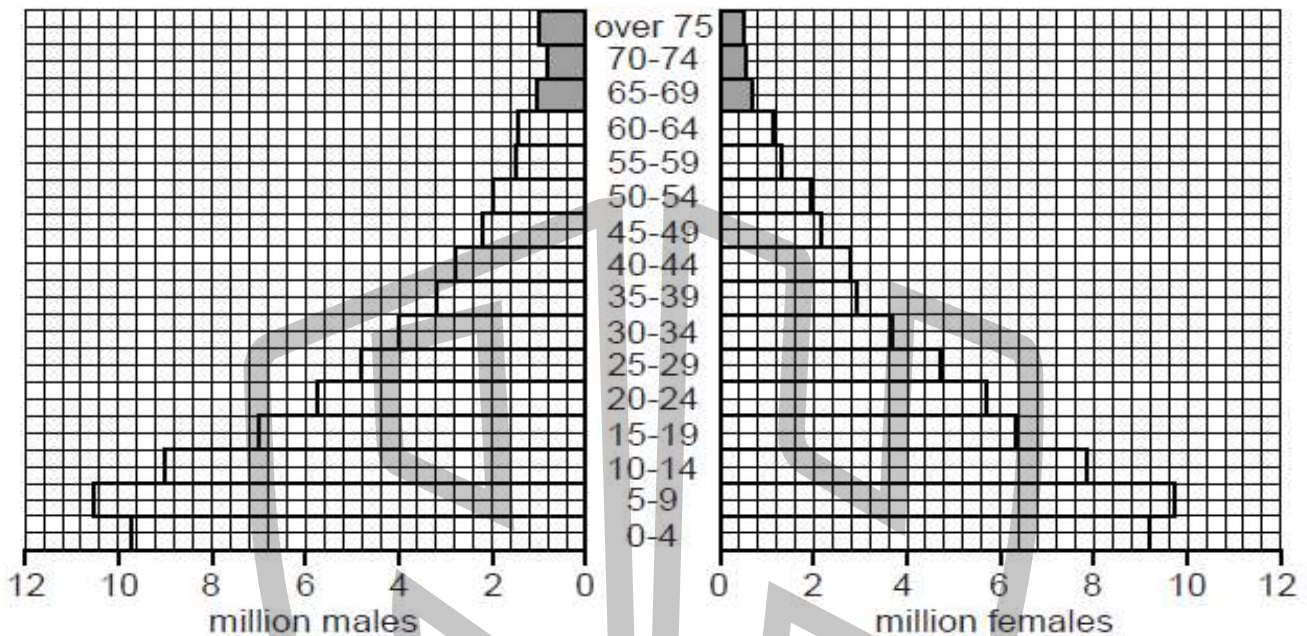

(d) Pakistan's population is predicted to double by 2050 if population growth continues at the current rate.

Evaluate whether it will be possible for the government to support the population of Pakistan in the future. Give reasons to support your **judgement** and refer to examples you have studied. You should consider **different** points of view in your answer.

..... [6]

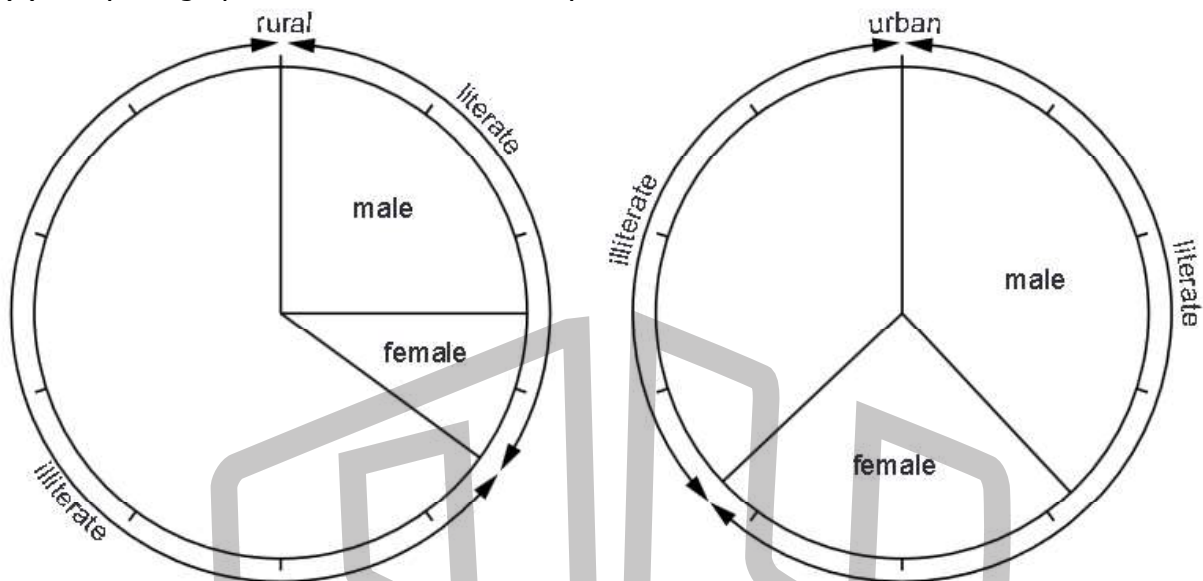

Q1. A population is a summation of all the organisms of the same group or species, which live in a particular geographical area, and have the capability of interbreeding.

(a) Study the figure which shows the population pyramid for Pakistan.

- (i) What is the age range of the shaded portion of the population? [1]
- (ii) Why the population of Pakistan is estimated to increase to double by 2020? [3]
- (iii) How this population will be affecting the working group in Pakistan? [3]

(b) Study the graph which shows the literacy rate in Pakistan.

- (i) What is the total percentage of literate male in urban areas? [1]

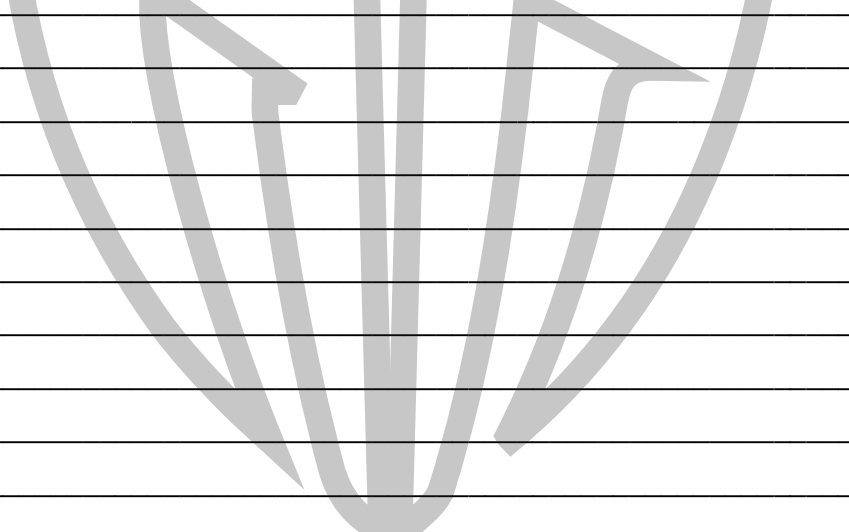

- (ii) How much larger is this than the percentage of literate males in rural areas? [1]

- (iii) Explain why literacy is necessary for the increase of economic development in Pakistan? [3]

- (iv) Why it is difficult for Pakistan to increase life expectancy of the people? [3]

(i) Explain the causes of high birth rate in Pakistan.

[4]

[6]

[6]

[TOTAL: 25 MARKS]
